Custom 4G FWA Unlimited Mobile Broadband Plan with Mobile Broadband Priority and Preemption for National Security, Public Safety, and First Responders

Government Liable Subscribers Only

The plan below reflects the monthly access charge discount. No additional discounts apply.

Monthly Access Fee	\$39.99 (53910)
Domestic Data Allowance¹	Unlimited

NOTES: Coverage includes the Verizon Wireless 5G Nationwide® network and 4G LTE network. For avoidance of doubt, the Verizon Wireless 5G Nationwide network is a separate network from the Verizon Wireless 5G Ultra Wideband network. No domestic roaming charges or long distance charges. Only 5G Nationwide and 4G LTE routers can be activated on this plan.

¹Data usage on this rate plan is not subject to speed reductions (“throttling”) within a given billing cycle. However, in the event data usage exceeds 25GB each billing cycle for three (3) consecutive billing cycles, data throughput speeds will automatically be reduced to 600kbps for data usage exceeding 25GB per billing cycle on a go-forward basis. Data usage for actively engaged and deployed fire, police, emergency medical technicians, emergency management agency, and assigned federal law enforcement users on this plan will not be subject to speed reductions regardless of data usage during any billing cycle. To ensure users are able to maximize their high-speed data use for business applications, video applications will stream at 720p.

This plan includes Mobile Broadband Priority and Preemption. Mobile Broadband Priority allows customers to connect to the network with priority by leveraging a pool of radio resources dedicated to enable their connection. Mobile Broadband Priority identifies the user with an Access Priority setting, giving them higher priority for network access than lower Access Class users. Preemption automatically activates to provide approved personnel uninterrupted access to the network in those uncommon times when the network is fully utilized. 911 calls are never preempted. Dedicated streaming internet connections streaming video on non-smartphone devices (including but not limited to, body cameras and stationary video surveillance cameras), and **IoT devices are expressly prohibited on this plan. Devices utilized in conjunction with this plan are limited to routers.**

Notes: Current coverage details and additional plan information can be found at www.verizonwireless.com. Lines activating on this plan must be on 5G UWB-compatible, 5G Nationwide, or 4G LTE smartphones.

For data usage in Canada and Mexico and all Rest of World TravelPass countries, after the first 5 GB of usage in a day, throughput speeds for additional usage will be reduced for the remainder of the day. Verizon Wireless will terminate a line if more than half of the usage over three consecutive billing cycles is outside of the United States, following 30 days' notice to Customer. For eligible countries, non-TravelPass country rates, and additional information, go to www.verizonwireless.com/international.
