NOTICE TO ALL FAUQUIER COUNTY GOVERNMENT AND PUBLIC-SCHOOL USING DEPARTMENTS: This contract is the result of a competitive bid program, and its use must follow the FCG&PS Procurement Policy/Procedures for the purchase of the commodity listed herein. Please see the reverse side of this notice for further instructions regarding this contract.

INSTRUCTIONS

1. Orders: All FCG&PS Using Departments must order services listed by issuing FCG&PS Purchase Orders per FCG&PS Procurement Procedures Manual. An extra copy of the Procedures Manual can be obtained by calling Procurement at (540) 4228351 or (540) 422-8352
2. The applicable contract number, vendor number, item description, estimated total dollar amount (can be done as a “Not to exceed” estimated figure), contact person with phone number, and billing/delivery address must be shown on each purchase order for Finance & Contractor use.
3. Inspection on delivery and approval of contractor’s invoice is the responsibility of the receiving using department. The Contractor shall issue credit for unsatisfactory/poor product.
4. Any complaint as to quality of goods or services, faulty or delinquent delivery, or violation of contract provisions by contractor shall be reported to FCG&PS Procurement for handling with the Contractor. All complaints must be submitted in writing and can be forwarded to Procurement via email, fax or courier.
5. Renewals: There are no renewal options remaining.
6. To Place an Order:
 - To set-up an online account to access contract pricing, contact:
Kathy Weber 215-292-3671 Kathy.Weber@thermofisher.com
 - If you already have an account, you can login and check pricing at:
<https://www.fishersci.com/us/en/getting-around/account-settings.html#genericTabContent1>
6. Shipping:
There is free shipping on all orders in the continental United States (excludes live, hazardous, motor freight, and expedited shipping charges). There are reduced hazardous fees of \$10.00.
7. Prices, see below:

Dear Jill,

Subject: Contract Renewal Letter

Virginia Tech Contract #: VTG-546-2017
 Commodity/Service: General Laboratory Supplies and Equipment
 Renewal Period: 4/7/25 - 4/6/28
 Renewal #: (2 of 2) three-year renewal

In accordance with the renewal provision of the original contract, the university would like to renew the contract for an additional term. Please advise concerning your intention by signing in the appropriate space below. A signed copy of this letter should be received in Procurement by 2/1/25.

If allowed by the contract, price adjustments must be requested at the time of renewal in accordance with the contract documents. Price adjustments are not automatic or retroactive and are only implemented upon request by the vendor at the time of renewal.

In addition, review the attached form which shows your company information as listed in the university's vendor database. If any of this information has changed, make corrections directly on the form, and return with this letter. It is essential this information be accurate for payments to be processed in a timely manner.

Virginia Tech recommends that our vendors utilize the Wells One AP Control Payment System for payment of all invoices and strongly encourages all vendors under contract with the university to participate in this program. If your firm is not enrolled in the program, refer to our website: <http://www.procurement.vt.edu/Vendor/WellsOne.html> or contact me directly for more information.

Sincerely,

Chad Dalton

CONTRACT MODIFICATION AGREEMENT

Date: November 6, 2024

Contract No.: VTG-546-2017

Modification No.: 3

Issued By: Virginia Polytechnic Institute and State University (Virginia Tech)

Contractor: Fisher Scientific Company LLC

Commodity: General Laboratory Supplies and Equipment

This Supplemental Agreement is entered into pursuant to the provisions of the basic contract.

Description of Modification:

Effective November 6, 2024, the Publicly Accessible Contract (PAC) Agreement is hereby being incorporated into contract # VTG-546-2017. All of which documents are incorporated herein and attached hereto.

Except as provided herein, all terms and conditions of Contract Number VTG-546-2017, as heretofore changed, remain unchanged and in full force and effect.

**AGREEMENT
PUBLICLY ACCESSIBLE CONTRACT**

This Agreement executed this 6th day of November, 2024 by and between Virginia Polytechnic Institute & State University, (“the University”) and Fisher Scientific Company LLC (“Supplier”).

TERM

The term of this Publicly Accessible Contract (“PAC”) shall remain in effect until the expiration or termination of the Primary Agreement.

WITNESS

WHEREAS, the University and Supplier have executed an agreement, VTG-546-2017, dated April 7, 2017 (the “Primary Agreement”), and included in the Primary Agreement is a third-party access / cooperative procurement clause. Now therefore, the University and Supplier agree to the specific terms that will allow third-party access to the Primary Agreement, and based on other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

- I. Supplier will:
 - A. Allow third parties to obtain goods and services from Supplier in accordance with the terms and pricing of the Primary Agreement (“Third-Party Access”).
 - B. Pay the Virginia Higher Education Procurement Consortium (“Consortium”) one percent (1%) of all revenue received by Supplier from non-Consortium entities through Third-Party Access (the “PAC Annual Fee”). The PAC Annual Fee will be paid in exchange for marketing services provided by the University and the Consortium described in Section II.
 - C. Fully support this marketing relationship by promoting the availability of the Third Party Access to non-Consortium entities; and
 - D. Provide quarterly reports detailing the amount of revenue received from non-Consortium entities through Third-Party Access.
 - E. Require, as a condition of participating in the Primary Agreement, each third party who wants to participate to sign the Enrollment Agreement attached to this Agreement as Exhibit A.
- II. The University will ensure the Consortium:
 - A. Promotes the Primary Agreement and Third-Party Access on its website and through other channels (e.g., conferences) to non-Consortium members; and

- B. Maintains a Supplier-approved version of the Supplier's logo on the Consortium website.

III. Payment

- A. Supplier shall remit the PAC Annual Fee to the Consortium no later than August 31st of each year. The University and Consortium will share the payments equally and allocate payments to the appropriate accounts.

If the Primary Agreement expires or terminates before August 31st, Supplier shall remit the PAC Annual Fee no later than 45 calendar days from expiration or termination date of the Primary Agreement.

- B. Supplier shall remit the PAC Annual Fee by check in U.S. dollars. Checks will be made payable to the University of Virginia and sent to:

Procurement Office Manager
Procurement and Supplier Diversity Services
University of Virginia, Carruthers Hall
PO Box 400202
1001 N. Emmet Street
Charlottesville, VA 22904

Note 'PAC payment' on check.

IV. Notices

Any notice required or permitted to be given under this Agreement will be in writing and will be deemed duly given: (1) if delivered personally, when received; (2) if sent by recognized overnight courier service, on the date of the receipt provided by such courier service; (3) if sent by registered mail, postage prepaid, return receipt requested, on the date shown on the signed receipt; or (4) if sent by electronic mail, on the next business day of the receiver. All such notices will be addressed to a party at such party's address as shown below.

If to the University:

 Pittsburgh, PA 15275-1001

Dear Ms. Weber:

Subject: Contract Renewal Letter

Virginia Tech Contract #: VTG-546-2017
 Commodity/Service: General Laboratory Supplies and Equipment
 Renewal Period: April 7, 2022 through April 6, 2025
 Renewal #: (1 of 2) Three-year renewal

In accordance with the renewal provision of the original contract, the university would like to renew the contract for an additional term. Please advise concerning your intention by signing in the appropriate space below. A signed copy of this letter should be received in Procurement by March 21, 2022 along with an updated Certificate of Insurance as outlined in the contract documents and naming Virginia Tech and the Commonwealth of Virginia as an additional insured.

If allowed by the contract, price adjustments must be requested at the time of renewal in accordance with the contract documents. Price adjustments are not automatic or retroactive and are only implemented upon request by the vendor at the time of renewal.

In addition, the attached contract renewal modification agreement outlines what modifications will be incorporated into effect upon renewal # 1 of contract # VTG-546-2017.

Virginia Tech recommends that our vendors utilize the Wells One AP Control Payment System for payment of all invoices and strongly encourages all vendors under contract with the university to participate in this program. If your firm is not enrolled in the program, refer to our website: <http://www.procurement.vt.edu/Vendor/WellsOne.html> or contact me directly for more information.

CONTRACT RENEWAL MODIFICATION AGREEMENT

Date: 3/7/2022

Contract No.: VTG-546-2017

Modification No.: 2

Issued By: Virginia Polytechnic Institute and State University (Virginia Tech)

Contractor: Fisher Scientific Company LLC

Commodity: General Laboratory Supplies and Equipment

This Supplemental Agreement is entered into pursuant to the provisions of the basic contract.

Description of Modification:

Upon renewal # 1 of contract # VTG-546-2017, the following modifications will be incorporated into effect:

1. Fisher and VHEPC will work together to create and update a vendor scorecard semi-annually for VASCUPP and individual schools. The scorecard will monitor Fisher in 4 main categories:
 - a) Financial – Fisher will monitor and demonstrate Beyond Contract Savings, Hotlist Utilization %, Shipping Cost Avoidance, and audit and repay over payments (not too be cancelled out by underpayments).
 - b) Customer Service – Fisher will report fill rate, customer responsiveness, reporting requirements by due dates and others TBD by Fisher or VHEPC
 - c) Functionality – Fisher will report spend percentages by Procurement or Payment Type. P-card, E-procurement, phone, etc.
 - d) Innovation – Fisher will report on additional values regarding innovation, including new products/services, strategic initiatives, sustainability, etc.
2. Updating Attachment B – Quarterly Sales Report History Template to the following:

Attachment B: Quarterly Utilization Reports due 15 days after quarter end.

- o PO Number
- o Line Item Number
- o Order Date
- o Invoice Number
- o Invoice Date
- o Group Number
- o Group Name (i.e. University)
- o PPG Code
- o PPG Description
- o PPG Discount % from List
- o Item Number
- o Item Description

- o Manufacturer Number (manufacturer's product number, not supplier id)
- o Manufacturer Name
- o Unit of Measure
- o SU Contract Price
- o AU Contract Price
- o SU in AU
- o SU Sales Quantity
- o SU Price Paid
- o AU Sales Quantity
- o AU Price Paid
- o SU in AU
- o Extended Price Paid
- o SU Contract Price
- o AU Contract Price
- o Extended Contract Pricing
- o SU List Price
- o AU List Price
- o Extended List Pricing
- o Savings
- o Hotlist (Y/N)

3. Updating Attachment C – Annual Price File with Hotlist Indicated to the following:

Attachment C: Annual Price File with Hotlist Indicated. New Hotlist pricing must be submitted 30 days prior price go-live. Hot list shall be 25% of total VHEPC spend.

- o Item Number
- o Item Description
- o Manufacturer Number (manufacturer's product number, not supplier id)
- o Manufacturer Name
- o Unit of Measure
- o SU Contract Price
- o AU Contract Price
- o SU List Price
- o AU List Price
- o SU in AU
- o PPG Code
- o PPG Description
- o PPG Discount % from List
- o Hotlist (Y/N)

4. The Insurance requirements for the contract shall be updated as follows:

On page 17, Section 35 – limitation of liability; add “unless due to product failure within the warranty period, which shall be resolved pursuant to the warranty clauses contained herein” after the word “damages”.

On page 18, Additional Term and Condition F – Insurance to be updated as follows:

In paragraph C, General Liability, - Limits updated to \$1,000,000 per occurrence, \$2,000,000 aggregate. Delete “Independent Contractor’s Liability, Owner’s and Contractor’s Protective Liability.” Add to the end of the paragraph, “Products and Completed Operations Coverage may be maintained under a separate policy of insurance.”

D. Automobile Liability - \$500,000.00 to be replaced with “a minimum combined single limit for bodily injury and property damage of \$1,000,000 per accident with the following coverages for vehicles operated on their behalf: Any Automobile, Owned and Non-Owned Automobiles.”

Delete paragraph D – Automotive Liability; and replace with D – Automobile Liability; “The contractor will maintain insurance which meets or exceeds the requirements of the University with insurance companies that hold at least an A- financial rating with A.M. Best Company.”

COMMONWEALTH OF VIRGINIA

STANDARD CONTRACT

Contract Number: VTG-546-2017

This contract entered into this 7th day of April 2017 by Fisher Scientific Company LLC hereinafter called the "Contractor" and Commonwealth of Virginia, Virginia Polytechnic Institute and State University called "Virginia Tech."

WITNESSETH that the Contractor and Virginia Tech, in consideration of the mutual covenants, promises and agreements herein contained, agree as follows:

SCOPE OF CONTRACT: The Contractor shall provide General Laboratory Supplies and Equipment to Virginia Tech as set forth in the Contract Documents.

PERIOD OF CONTRACT: From April 7, 2017 through April 6, 2022 with two additional three-year renewal periods, as negotiated.

COMPENSATION AND METHOD OF PAYMENT: The Contractor shall be paid by Virginia Tech in accordance with the Contract Documents.

CONTRACT DOCUMENTS: The Contract Documents shall consist of the Signed Agreement dated April 1, 2017, which supersedes all other documents, the Request for Proposal (RFP) number 0046374 dated August 1, 2016, and the proposal submitted by the Contractor dated September 13, 2016, all of which Contract Documents are incorporated herein.

AGREEMENT

This Agreement, effective on April, 1, 2017, by and between Virginia Polytechnic Institute and State University ("Virginia Tech"), on behalf of the Virginia Higher Education Procurement Cooperative (VHEPC), and Fisher Scientific Company L.L.C ("Fisher").

TERM

The initial term of this Agreement will commence upon execution of this Agreement and will be in effect for five years. There is the ability to renew the Agreement on the same terms and conditions, for two additional three-year periods. Fisher and Virginia Tech will mutually agree at least 180 days prior to each renewal option whether to renew the terms of this Agreement.

PROVISIONS

These specific provisions constitute this Agreement:

A. Solicitation for products and services.

The products and services provided for in this Agreement were publically solicited via Request for Proposal (RFP) number 46374 issued by Virginia Tech on August 1, 2016. Fisher responded by submitting a Proposal dated September, 2016. Terms and Conditions that apply to this Agreement are provided in Attachment (A).

This document and its attachments shall constitute the entire Agreement between the Parties. Any amendments or modifications to this Agreement must be enacted in writing and agreed to by both Parties.

B. Scope of Good and Services.

Fisher will provide its line of products at discounted prices to all parties to this Agreement. These are termed Catalog Products. It is understood and agreed that the product lines distributed by Fisher will change periodically and new products and services will be made available to participating Institutions. In addition, Fisher makes available a wide range of Non-catalog Products. These are typically specialized items for which low customer demand does not warrant stocking at distribution points. Reference (B) provides details of Fishers product and service capabilities.

Participating Institutions include the VHEPC member Institutions named in the basic RFP document. Other public and private Institutions of higher education located in Virginia may elect to participate in the Agreement and should provide written notice to Virginia Tech of their desire to participate.

C. Strategic Relationship.

Participating Institutions will recognize Fisher as a Preferred Supplier for the products and services being offered. The Preferred Supplier designation recognizes a long-standing and continuing relationship in which Fisher has demonstrated high standards of reliability, quality and transactional efficiency. Institutions will publicize this relationship internally to end users and will endeavor to lend local support to Fishers customer service representatives in their efforts to provide support and sales growth. In the same manner, Fisher will endeavor to improve end user access to all corporate partners at prices no greater than VHEPC members receive directly from the corporate partners. Examples include, but are not limited to: Thermo Fisher and Life Technologies.

Fisher agrees to maintain a new lab start-up program offering additional discounts and no cost products to end users. To the greatest extent feasible, Fisher will endeavor to maximize ecommerce transactions from the purchase through payment to include, but not limited to, posting electronic quotes in the catalog.

D. Pricing and Discounting Structure.

Fisher will provide minimum discounted pricing for all catalog products within its distribution system. One level of discounting is established based upon product pricing groups. Fisher Product Pricing Group (PPG), is provided as Attachment (B). Further, selected items within the product pricing group will be selected for increased discounting and termed Hotlist Items. The Hotlist will be common to all institutions and will comprise approximately 600 Catalog Products. Hotlist items will be identified with a special icon and will be searchable within the catalog. Maximum pricing for both groups of products will be maintained for a calendar year and will be common to all participating institutions. At least 30 days prior to the commencement of a new calendar year, proposed hotlist item changes and pricing and discount changes will be provided to the Contract Administrator for review and approval. A rolling 12-month average of The Bureau of Labor Statistics Producer Price Index Finished Goods Less Food and Energy: WPUFD4313 shall be used to determine price reasonableness of product increases. VHEPC has the right to reject pricing increases.

It is acknowledged that Fisher reserves the right to have a minimum gross margin of 11 per cent in order not to sell below cost.

Pricing for products from third-party suppliers will be quoted to the end user at the time of order placement. No obligation in third-party transaction is created until a purchase order is issued to Fisher by the Institution. Within the context of this section, quotes from Fisher-owned companies such as Thermo Fisher and Life Technologies are not subject to additional markups.

To facilitate end user access and ordering, Fisher will maintain electronic catalogs depicting all catalog products, item descriptions, net pricing and other related product information. The electronic catalog will be made available to end users via the Commonwealth of Virginia's electronic procurement system (eVA), and in individual Institutional e-procurement platforms.

E. Contract Administration.

Virginia Tech will serve as the lead Institution for administering this contract. As the lead institution, Virginia Tech has designated The Director of the Virginia Higher Education Procurement Cooperative (VHEPC), to administer this contract on behalf of participating Institutions. The Contract Administrator is empowered to act to review and approve pricing and product changes and to address any issues that relate globally to the performance of the contract. Any significant changes to the scope of the contract shall be addressed first to the Contract Administrator who will determine if a formal written contract modification is necessary.

The Contract Administrator will maintain data bases containing current Fisher catalog items and pricing and current Hotlist items and pricing. This information will be made available to participating Institutions upon request.

Following enactment of this Agreement, Fisher and the Contract Administrator will determine the specific set of criteria and performance metrics to be used in a performance scorecard. The criteria will fall into four categories: Customer Satisfaction, Financial, Functionality, and Innovation. Examples of specific financial criteria might be: overall sales reported by institution and by the total group; cost savings; and timely payment of SwamFest sponsorship and incentives. Examples of functionality and innovation might be: adding configuration functionality or marking SWaM companies in the catalog. Fisher management and the Contract Administrator will meet semi-annually to review the scorecard performance metrics and to address any emergent subjects.

F. Support for Diverse Subcontractors.

There is a long-standing program in place at each participating institution to promote and monitor expenditures made with small, woman-owned and minority-owned businesses (SWaM). This includes primary and secondary subcontract expenditures. Performance in this area is closely reviewed by top management at each institution. It is therefore very important for Fisher and the participating Institutions to do everything possible to provide support and accurate reporting of SWaM subcontracting.

Fisher has internal resources dedicated to provide support to diverse subcontractors. It is understood that Fisher will attempt to identify SWaM subcontractors who are certified in the Commonwealth of Virginia and will provide as much information as possible,

including expenditures by institution, to the VHEPC on a quarterly basis. Further, Fisher will continue to support VASCUPP outreach programs aimed at SWaM suppliers and will sponsor the annual VASCUPP SWaMFest event at the diamond level.

G. Freight and Shipping Cost

Fisher agrees to prepay shipping costs for all catalog products. Fisher may charge the actual cost of freight under the following conditions: for non-United States destinations, for non-catalog products, or at the specific request of the end user who may request special handling or air express, to cite two examples. These charges are termed "Non-Standard Transportation Charges".

Fisher agrees to work to the greatest extent feasible with third party suppliers and participating Institutions to facilitate the use of inbound freight management programs for non-standard transportation charges.

H. Returns.

Goods intended to be returned will be coordinated with Fisher's Customer Service Center within 30 days of receipt for adjustment or replacement, as the option of the end user. There are some exceptions to this general policy for specialized situations. A return of goods authorization number must be obtained prior to return shipment. The cost of the return shipment will be Fishers responsibility.

Fisher Scientific's Return Policy:

Fisher Scientific's "no hassle" return policy is part of our commitment to fulfilling complete customer satisfaction. Returns can be coordinated by contacting our Customer Service center. Products may be returned within 30 days for replacement or adjustment through our "no hassle" return program.

All returns, replacements, technical services and support will be handled by our customer service organization as follows:

To assure prompt handling, customers must obtain a Return Goods Authorization Number (RGA Number) from Customer Service and reference this number on return shipping documents. An RGA can be obtained by calling Customer Service at 800.766.7000 and / or request on-line authorization (you must be a registered and logged-in user). Please note that returns made without the RGA Number will be returned to the customer, freight collect.

Fisher Scientific reserves the right to reverse any credit issued to the customer:

- 1) for any Product not returned after authorization and requested by Distributor; or, if, upon return, such Product is determined by Distributor not to be defective.

Fisher Scientific will issue **full credit** for:

- Products not supplied in accordance with the customer's orders; and,
- Products which are defective at the time of receipt by the Subscriber.

Fisher Scientific will issue **partial credit** for:

- Products ordered in error, with the exceptions noted below.

Fisher Scientific **will not issue credit** for:

- Products which have been discontinued;
- Products which are personalized or customized;
- Non-Distributor line products supplied to a customer as an accommodation, including, without limitation, third party purchases;
- Products not purchased from Distributor;
- Refrigerated or temperature controlled Products;
- Products which are outdated, shelf-worn, used or defaced and, therefore, unsuitable for return to stock and resale as new;
- Reagents, diagnostics, or chemicals which have been opened;
- Products that have been shipped outside the United States; and
- Medical device products.

I. Payment.

To the greatest extent feasible, Fisher and Institutions will endeavor to implement electronic invoicing and payment methods. Fisher agrees to participate in "ghost card", or one-time-use card bank payment systems where they have been put in place by individual institutions.

Payment terms are 1.5%/15 net 30. Institutions who wish to obtain the prompt payment discount may either elect to short pay the invoice or receive quarterly payment from Fisher for the aggregate of prompt payment discounts during the preceding business quarter.

J. Incentive Program.

This Agreement establishes an incentive program aimed at fostering the greatest level of participation by all participants. Each institution will receive an incentive payment of two per cent of qualifying sales up to 105% of the previous year baseline. An incentive payment of two per cent is guaranteed up to 85 per cent of the baseline. If sales exceed 105% of the baseline, the incentive payment will be five per cent of the amount over 105%.

Qualifying sales includes Fisher-stocked, catalog products and catalog quoted products. Qualifying sales do not include products obtained from non-corporate partner, third-parties. The overall incentive achievement will be calculated based on the performance of all the institutions participating in this Agreement. Payment will be made by Fisher to each institution based upon their actual achievement. The payment will be made within 30 days following the close of the business quarter. At the end of the business year, if necessary, there will be a true-up calculation. An example of the Incentive Program calculation and payout is provided as Attachment (C).

GENERAL TERMS AND CONDITIONS

1. **ANTI-DISCRIMINATION:** By submitting their proposals, offerors certify to the Commonwealth that they will conform to the provisions of the Federal Civil Rights Act of 1964, as amended, as well as the Virginia Fair Employment Contracting Act of 1975, as amended, where applicable, the Virginians With Disabilities Act, the Americans With Disabilities Act, and Section 2.2-4311 of the Virginia Public Procurement Act. If the award is made to a faith-based organization, the organization shall not discriminate against any recipient of goods, services, or disbursements made pursuant to the contract on the basis of the recipient's religion, religious belief, refusal to participate in a religious practice, or on the basis of race, age, color, gender or national origin and shall be subject to the same rules as other organizations that contract with public bodies to account for the use of the funds provided; however, if the faith-based organization segregates public funds into separate accounts, only the accounts and programs funded with public funds shall be subject to audit by the public body. (*Code of Virginia*, § 2.2-4343.1 E).

In every contract over \$10,000 the provisions in A and B below apply:

A. During the performance of this contract, the Contractor agrees as follows:

- 1) The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
- 2) The Contractor, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, will state that such Contractor is an equal opportunity employer.
- 3) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this Section.

B. The Contractor will include the provisions of A. above in every subcontract or purchase order over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.

2. **ANTITRUST:** By entering into a contract, the Contractor conveys, sells, assigns, and transfers to Virginia Tech and the Commonwealth of Virginia all rights, title and interest in and to all causes of the action it may now have or hereafter acquire under the antitrust laws of the United States and the Commonwealth of Virginia, relating to the particular goods or services purchased or acquired by Virginia Tech and the Commonwealth of Virginia under said contract.
3. **APPLICABLE LAWS AND COURTS:** This solicitation and any resulting contract shall be governed in all respects by the laws of the Commonwealth of Virginia and any litigation with respect thereto shall be brought in the courts of the Commonwealth. The Contractor shall comply with applicable federal, state and local laws and regulations.

4. **ASSIGNMENT OF CONTRACT:** A contract shall not be assignable by the Contractor in whole or in part without the written consent of Virginia Tech.
5. **CHANGES TO THE CONTRACT:** Changes can be made to the Contract in any one of the following ways:
 - A. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract
 - B. Virginia Tech may order changes within the scope of the contract at any time by written notice to the Contractor. Changes within the scope of the contract include, but are not limited to, things such as the method of packing or shipment and the place of delivery or installation. If deemed acceptable and valid by Contractor, then the Contractor shall comply with the notice upon receipt. The Contractor shall be compensated for any additional costs incurred as the result of such order and shall give Virginia Tech a credit for any savings. Said compensation shall be determined by one of the following methods:
 - 1) By mutual agreement between the parties in writing; or
 - 2) By agreeing upon a unit price or using a unit price set forth in the mutually executed contract, if the work to be done can be expressed in units, and the Contractor accounts for the number of units of work performed, subject to Virginia Tech's right to audit the Contractor's records and/or to determine the correct number of units independently; or
 - 3) By ordering the Contractor to proceed with the work and to keep a record of all costs incurred and savings realized, only if in accordance with Contract Scope of Work. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The Contractor shall present Virginia Tech with all vouchers and records of expenses incurred and savings realized. Virginia Tech shall have the right to audit the records of the Contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be asserted by written notice to Virginia Tech within thirty (30) days from the date of receipt of the written order from Virginia Tech. If the parties fail to agree on an amount of adjustment, the question of an increase or decrease in the contract price or time for performance shall be resolved in accordance with the procedures for resolving disputes provided by the Disputes Clause of this contract or, if there is none, in accordance with the disputes provisions of the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and Their Vendors. Neither the existence of a claim or a dispute resolution process, litigation shall excuse the Contractor from promptly complying with the changes ordered by Virginia Tech if in accordance with the performance of the contract.
6. **CLAIMS:** Contractual claims, whether for money or other relief, shall be submitted in writing to the Director of Procurement, Procurement Department, North End Center, Suite 2100, Virginia Tech, 300 Turner Street NW, Blacksburg, Virginia 24061, no later than sixty (60) days after final payment; however, written notice of the contractor's intention to file such claim shall have been given at the time of the occurrence or beginning of the work upon which the claim is based. Nothing herein shall preclude a contract from requiring submission of an invoice for final payment within a certain time after completion and acceptance of the work or acceptance of the goods. Pending claims shall not delay payment of amounts agreed due in the final payment (*Code of Virginia*, Section 2.2-4363). A contractor may not institute legal action prior to receipt of the Director of Procurement decision on the claim, unless that office fails to render such decision within thirty (30) days. The decision of the Director of Procurement shall be final and conclusive unless the contractor, within six (6) months of the date of the final decision on the claim, institutes legal action as provided in the *Code of Virginia*, Section 2.2-4364.
7. **CLARIFICATION OF TERMS:** If any prospective offeror has questions about the specifications or other solicitation documents, the prospective offeror should contact the buyer whose name appears on the face of the solicitation

no later than five working days before the due date. Any revisions to the solicitation will be made only by addendum issued by the buyer.

8. **COMMONWEALTH OF VIRGINIA PURCHASING MANUAL FOR INSTITUTIONS OF HIGHER EDUCATION AND THEIR VENDORS:** This solicitation is subject to the provisions of the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and Their Vendors and any revisions thereto, which are hereby incorporated into this contract in their entirety. A copy of the manual is available for review in the Virginia Tech Procurement Department or by accessing URL <http://www.procurement.vt.edu> on the Web.

9. **CONFLICT OF INTEREST:** Virginia Tech is a public university, subject to the laws of the Commonwealth of Virginia. Among these is the State and Local Government Conflict of Interests Act (The Act). The Act can be accessed via <http://leg1.state.va.us/cgi-bin/legp504.exe?000+cod+2.2-3100>. You may wish to consult the provisions of The Act before submitting a response to the Request for Proposal. Additionally, by submitting a proposal or by entering into any resulting contract, the offeror certifies that it is in full compliance with the provisions of The Act as to this RFP.

10. **CONTRACT PARTICIPATION:** Any public body, public or private health or educational institutions, or Virginia Tech's affiliated corporations and/or partnerships may access any resulting contract/purchase order if authorized by the contractor.

Participating entities shall place their own order(s) directly with the Contractor and shall fully and independently administer their use of the contract/purchase order to include contractual disputes, invoicing and payments without direct administration from Virginia Tech. Virginia Tech shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract/purchase order. It is understood and agreed that Virginia Tech is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract/purchase order no matter the circumstances.

11. **DEBARMENT STATUS:** By submitting their proposals, offerors certify that they are not currently debarred by the Commonwealth of Virginia from submitting bids or proposals on contracts for the type of goods and/or services covered by this solicitation, nor are they an agent of any person or entity that is currently so debarred.

12. **DEFAULT:** In case of failure to deliver goods or services in accordance with the contract terms and conditions, Virginia Tech, after written notice, may procure them from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies which Virginia Tech may have. However, before Virginia Tech can procure goods from other sources, Contractor shall have ten (10) days from receipt of written notice to cure delivery failure.

13. **DRUG-FREE WORKPLACE:** In every contract over \$10,000 the following provisions apply: During the performance of this contract, the Contractor agrees to (i) provide a drug-free workplace for the Contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the Contractor that the Contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.

For the purposes of this section, "*drug-free workplace*" means a site for the performance of work done in connection with a specific contract awarded to a Contractor the employees of whom are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the contract.

14. **EO/AA STATEMENT:** If this contract is a covered government contract or subcontract, contractors and subcontractors shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status or disability.

Virginia Tech does not discriminate against employees, students, or applicants on the basis of age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, or veteran status; or otherwise discriminate against employees or applicants who inquire about, discuss, or disclose their compensation or the compensation of other employees, or applicants; or any other basis protected by law.

For inquiries regarding non-discrimination policies, contact the Office of Equity and Access at 540-231-2010 or Virginia Tech, North End Center, Suite 2300 (0318), 300 Turner St. NW, Blacksburg, VA 24061.

15. **ETHICS IN PUBLIC CONTRACTING:** By submitting their proposals, offerors certify that their proposals are made without collusion or fraud and that they have not offered or received any kickbacks or inducements from any other offeror, supplier, manufacturer or subcontractor in connection with their proposal, and that they have not conferred on any public employee having official responsibility for this procurement transaction any payment, loan, subscription, advance, deposit of money, services or anything of more than nominal value, present or promised unless consideration of substantially equal or greater value was exchanged.

16. **eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION:** The eVA Internet electronic procurement solution, web site portal www.eva.state.va.us, streamlines and automates government purchasing activities in the Commonwealth. The portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to Virginia Tech should participate in the eVA Internet e-procurement solution either through the eVA Basic Vendor Registration Service or eVA Premium Vendor Registration Service. Failure to register may result in the proposal being rejected.

17. **FACSIMILE PROPOSALS:** Facsimile **unsealed** proposals received in the Virginia Tech Procurement Department prior to the time and date designated for proposal submission will be accepted.

For **sealed** Request for Proposal (RFP) programs, an offeror may fax a proposal to a **non-Virginia Tech** third party, who in turn must deliver it, with the number of copies specified in the RFP, to the Procurement Department in a sealed envelope before the proposal due date and time. All information requested in the Proposal Preparation and Submission section of the RFP must be delivered with each copy of the proposal.

18. **IMMIGRATION REFORM AND CONTROL ACT OF 1986:** By submitting their proposals, the offerors certify that they do not and will not during the performance of this contract employ illegal alien workers or otherwise violate the provisions of the federal Immigration Reform and Control Act of 1986.

19. **INDEMNIFICATION:** Contractor agrees to indemnify, defend and hold harmless Virginia Tech and the Commonwealth of Virginia and their officers, agents, and employees from any claims, damages and actions of any kind or nature whether at law or in equity, arising from or caused by the use of any materials, goods, or equipment of any kind or nature, furnished by the contractor/any services of any kind or nature furnished by the contractor, provided that such liability is not attributable to the sole negligence of Virginia Tech or failure of Virginia Tech to use the materials, goods, or equipment in the manner already and permanently described by the contractor on the materials, goods or equipment delivered. To the extent allowed by Virginia law, the

indemnification obligation shall be reciprocal for damages caused by either party with sharing proportionate to each party's fault.

20. **INDEPENDENT CONTRACTOR:** The contractor shall not be an employee of Virginia Tech, but shall be an independent contractor.

Nothing in this agreement shall be construed as authority for the contractor to make commitments which shall bind Virginia Tech, or to otherwise act on behalf of Virginia Tech, except as Virginia Tech may expressly authorize in writing.

21. **LATE PROPOSALS:** To be considered for selection, proposals must be received by the Virginia Tech Procurement Department, Ste 2100, Virginia Tech, 300 Turner Street NW, Blacksburg, Virginia 24061, by the designated date and hour. The official time used in the receipt of proposals is that time on the automatic time stamp machine in the Virginia Tech Procurement Department. Proposals received in the Virginia Tech Procurement Department after the date and hour designated are automatically disqualified and will not be considered. Virginia Tech is not responsible for delays in the delivery of mail by the U.S. Postal Service, private couriers, the intrauniversity mail system, or another means of delivery. It is the sole responsibility of the offeror to insure that its proposal reaches the Virginia Tech Procurement Department by the designated date and hour.

22. **MANDATORY USE OF VIRGINIA TECH FORMS AND TERMS AND CONDITIONS:** Failure to submit a proposal on the official Virginia Tech form provided for that purpose may be a cause for rejection of the proposal. Modification of or additions to the General Terms and Conditions of the solicitation may be cause for rejection of the proposal; however, Virginia Tech reserves the right to decide, on a case by case basis, in its sole discretion, whether to reject such a proposal.

23. **NONDISCRIMINATION OF CONTRACTORS:** An offeror or contractor shall not be discriminated against in the solicitation or award of this contract because of race, religion, color, sex, national origin, age, disability, faithbased organizational status, any other basis prohibited by state law relating to discrimination in employment or because the offeror employs ex-offenders unless the state agency, department or institution has made a written determination that employing ex-offenders on the specific contract is not in its best interest. If the award of this contract is made to a faith-based organization and an individual, who applies for or receives goods, services, or disbursements provided pursuant to this contract objects to the religious character of the faith-based organization from which the individual receives or would receive the goods, services, or disbursements, the public body shall offer the individual, within a reasonable period of time after the date of his objection, access to equivalent goods, services, or disbursements from an alternative provider.

24. **NONVISUAL ACCESS TO TECHNOLOGY:** All information technology which, pursuant to this Agreement, is purchased or upgraded by or for the use of (the "Technology") Virginia Tech shall comply with the following nonvisual access standards from the date of purchase or upgrade until the expiration of this Agreement:

- (i) effective, interactive control and use of the Technology shall be readily achievable by nonvisual means;
- (ii) the Technology equipped for nonvisual access shall be compatible with the information technology used by other individuals with whom any blind or visually impaired user of the Technology interacts;
- (iii) nonvisual access technology shall be integrated into any networks used to share communications among employees, program participants or the public; and
- (iv) the technology for nonvisual access shall have the capability of providing equivalent access by nonvisual means to telecommunications or other interconnected network services used by persons who are not blind or visually impaired.

Compliance with the foregoing nonvisual access standards shall not be required if the head of the using agency, institution or political subdivision determines that (i) the Technology is not available with nonvisual access because the essential elements of the Technology are visual and (ii) nonvisual equivalence is not available.

Installation of hardware, software, or peripheral devices used for nonvisual access is not required when the Technology is being used exclusively by individuals who are not blind or visually impaired, but applications programs and underlying operating systems (including the format of the data) used for the manipulation and presentation of information shall permit the installation and effective use of nonvisual access software and peripheral devices

If requested, the Contractor must provide a detailed explanation of how compliance with the foregoing nonvisual access standards is achieved and a validation of concept demonstration.

The requirements of this Paragraph shall be construed to achieve full compliance with the Information Technology Access Act, § 2.2-3500 through 2.2-3504 of the Code of Virginia.

25. **PARKING PERMITS:** Virginia Tech Parking Services requires the purchase and display of a parking permit for all vendor/business/contractor vehicles, privately and company owned, that park on campus. The cost of the permit is the same as the faculty/staff permit. Permit options include one year, six months, three months, summer, or day. Permits are available through application at Virginia Tech Parking Services, 455 Research Center Drive, Blacksburg, Virginia 24061. Additional information is available at <http://www.parking.vt.edu/vbc.htm> or by calling Parking Services at (540) 231-3200.

26. **PAYMENT:**

A. **TO PRIME CONTRACTORS:**

- 1) Invoices for items ordered, delivered and accepted shall be submitted by the Contractor directly to the payment address shown on the purchase order/contract. All invoices shall show the Virginia Tech or state contract number and/or purchase order number; social security number (for individual contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations).
- 2) Any payment terms requiring payment in less than 30 days will be regarded as requiring payment 30 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 30 days, however.
- 3) All goods or services provided under this contract or purchase order, that are to be paid for with public funds, shall be billed by the Contractor at the contract price, regardless of which public agency is being billed.
- 4) The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized under the Virginia Debt Collection Act.
- 5) **Unreasonable Charges.** Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Commonwealth shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification. The provisions of this section do not relieve an agency of its prompt payment obligations with respect to those charges which are not in dispute (*Code of Virginia*, § 2.2-4363).

B) TO SUBCONTRACTORS:

1) A contractor awarded a contract under this solicitation is hereby obligated:

- a) To pay the subcontractor(s) within seven (7) days of the contractor's receipt of payment from the Commonwealth for the proportionate share of the payment received for work performed by the subcontractor(s) under the contract; or
- b) To notify Virginia Tech and the subcontractor(s), in writing, of the contractor's intention to withhold payment and the reason.

The contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the contract) on all amounts owed by the contractor that remain unpaid seven (7) days following receipt of payment from the Commonwealth, except for amounts withheld as stated in b) above. The date of mailing of any payment by U.S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the Commonwealth.

27. **PRECEDENCE OF TERMS:** Paragraphs 1, 2, 3, 7, 8, 9, 13, 15, 18, and 19 of these General Terms and Conditions shall apply in all instances. In the event there is a conflict between any of the other General Terms and Conditions and any Special Terms and Conditions in this solicitation, the Special Terms and Conditions shall apply.

28. **PUBLIC NOTICE OF AWARD:** Public notice of the purchase order/contract award will be publicly posted on the DGS/DPS eVA web site www.eva.state.va.us. Award information may also be obtained by contacting the buyer whose name appears on the solicitation.

29. **QUALIFICATIONS OF OFFERORS:** Virginia Tech may make such reasonable investigations as deemed proper and necessary to determine the ability of the offeror to perform the work/furnish the item(s) and the offeror shall furnish to Virginia Tech all such information and data for this purpose as may be requested. Virginia Tech reserves the right to inspect offeror's physical facilities prior to award to satisfy questions regarding the offeror's capabilities. Virginia Tech further reserves the right to reject any proposal if the evidence submitted by, or investigations of, such offeror fails to satisfy Virginia Tech that such offeror is properly qualified to carry out the obligations of the contract and to complete the work/furnish the item(s) contemplated therein.

30. SMALL, WOMEN, AND MINORITY-OWNED (SWAM) BUSINESS SUBCONTRACTING AND EVIDENCE OF COMPLIANCE:

A. Where it is practicable for any portion of the awarded contract to be subcontracted to other suppliers, the contractor is encouraged to offer such business to small, women, and/or minority-owned (SWAM) business. If SWAM subcontractors are used, the prime contractor agrees to report the use of SWAM subcontractors by providing the Owner at a minimum the following information: name of firm, SBSB SWAM certification number, phone number, total dollar amount subcontracted, category type (small, women, or minority-owned), and type of product/service provided. Note that SWAM vendors MUST be certified with the Virginia Department of Small Business and Supplier Diversity (SBSB) <http://www.sbsb.virginia.gov>.

B. Definitions:

1. **Small business** – An independently owned and operated business which, together with affiliates, has 250 or fewer employees or average annual gross receipts of \$10 million or less averaged over the previous three years. Virginia Department of Small Business and Supplier Diversity (SBSB) certified women-owned and minority-owned business shall also be considered small business when they have received SBSB small business certification.

2. **Women-owned business** – A business concern that is at least 51% owned by one or more women who are U. S. citizens or legal resident aliens, or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest is owned by one or more women who are citizens of the United States or non-citizens who are in full compliance with the United States immigration law, and both the management and daily business operations are controlled by one or more women who are U. S. citizens or legal resident aliens.
3. **Minority-owned business** – A business concern that is at least 51% owned by one or more minority individuals (see Section 2.2-1401, Code of Virginia) or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest in the corporation, partnership, or limited liability company or other entity is owned by one or more minority individuals and both the management and daily business operations are controlled by one or more minority individuals.
4. **Minority individual** – means an individual who is a citizen of the United States or a non-citizen who is in full compliance with United States immigration law and who satisfies one or more of the following definitions:
 - a. "African American" means a person having origins in any of the original peoples of Africa and who is regarded as such by the community of which this person claims to be a part.
 - b. "Asian American" means a person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands, including but not limited to Japan, China, Vietnam, Samos, Laos, Cambodia, Taiwan, Northern Marinas, the Philippines, a U. S. territory of the Pacific, India, Pakistan, Bangladesh, or Sri Lanka and who is regarded as such by the community of which this person claims to be a part.
 - c. "Hispanic American" means a person having origins in any of the Spanish-speaking peoples of Mexico, South or Central America, or the Caribbean Islands or other Spanish or Portuguese cultures and who is regarded as such by the community of which this person claims to be a part.
 - d. "Native American" means a person having origins in any of the original peoples of North America and who is regarded as such by the community of which this person claims to be a part or who is recognized by a tribal organization.
- C. All Small, Woman-owned, Minority-owned and Disabled Veteran-owned businesses who meet the definition established by the Code of Virginia as certifiable are strongly encouraged to obtain certification with the Virginia Department of Small Business and Supplier Diversity (SBSD).
31. **TAXES:** Sales to Virginia Tech and the Commonwealth of Virginia are normally exempt from State sales tax, State sales and use tax certificates of exemption, Form ST-12, will be issued upon request. Deliveries against this contract shall be free of Federal excise and transportation taxes. The Commonwealth's excise tax exemption registration number is 54-73-0076K.
32. **TESTING AND INSPECTION:** Virginia Tech reserves the right to conduct any test/inspection it may deem advisable to assure supplies and services conform to the specification. All test/inspection criteria shall be mutually agreed to between Virginia Tech and Contractor. Accordingly, acceptance testing compliance is to be measured with published specifications, with testing in accordance with industry standards.
33. **TRANSPORTATION AND PACKAGING:** By submitting their proposals, all offerors certify and warrant that the price(s) offered are for FOB destination and include only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped. Except as otherwise specified herein, standard commercial packaging, packing and shipping containers shall be used. All shipping containers shall be legibly marked or labeled on the outside with purchase order number, commodity description, and quantity.
34. **USE OF BRAND NAMES:** Unless otherwise provided in this solicitation; the name of a certain brand, make or manufacturer does not restrict offerors to the specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which Virginia Tech in its sole discretion determines to be equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The offeror is responsible to clearly and specifically

indicate the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable Virginia Tech to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Unless the offeror clearly indicates in its proposal that the product offered is an "equal" product, such proposal will be considered to offer the brand name product referenced in the solicitation.

35. LIMITATION OF LIABILITY:

Notwithstanding anything else to the contrary, Contractor will not be liable for any consequential, incidental, special, punitive or other indirect damages, and Contractor's total liability arising at any time from the sale or use of the products shall not exceed one million dollars (\$1,000,000). These limitations apply whether the liability is based on contract, tort, strict liability or any other theory.

ADDITIONAL TERMS AND CONDITIONS:

- A. ADDITIONAL GOODS AND SERVICES:** The University may acquire other goods or services that the supplier provides than those specifically solicited. The University reserves the right, subject to mutual agreement, for the Contractor to provide additional goods and/or services under the same pricing, terms and conditions and to make modifications or enhancements to the existing goods and services. Such additional goods and services may include other products, components, accessories, subsystems, or related services newly introduced during the term of the Agreement.
- B. ADVERTISING:** In the event a contract is awarded for supplies, equipment, or services resulting from this solicitation, no indication of such sales or services to Virginia Tech will be used in product literature or advertising. The Contractor shall not state in any of the advertising or product literature that the Commonwealth of Virginia or any agency or institution of the Commonwealth has purchased or uses its products or services.
- C. AUDIT:** The Contractor hereby agrees to retain all books, records, and other documents relative to this contract for five (5) years after final payment, or until audited by the Commonwealth of Virginia, whichever is sooner. Virginia Tech, its authorized agents, and/or the State auditors shall have full access and the right to examine any of said materials during said period.
- D. AVAILABILITY OF FUNDS:** It is understood and agreed between the parties herein that Virginia Tech shall be bound hereunder only to the extent of the funds available or which may hereafter become available for the purpose of this agreement.
- E. CANCELLATION OF CONTRACT:** Virginia Tech reserves the right to cancel and terminate any resulting contract, in part or in whole, without penalty, upon 60 days written notice to the Contractor. In the event the initial contract period is for more than 12 months, the resulting contract may be terminated by either party, without penalty, after the initial 12 months of the contract period upon 60 days written notice to the other party. Any contract cancellation notice shall not relieve the Contractor of the obligation to deliver and/or perform on all outstanding orders issued prior to the effective date of cancellation.

F. INSURANCE:

By signing and submitting a proposal under this solicitation, the Offeror certifies that if awarded the contract, it will have the following insurance coverages at the time the work commences. Additionally, it will maintain these during the entire term of the contract and that all insurance coverages will be provided by insurance companies authorized to sell insurance in Virginia by the Virginia State Corporation Commission.

During the period of the contract, Virginia Tech reserves the right to require the Contractor to furnish certificates of insurance for the coverage required.

INSURANCE COVERAGES AND LIMITS REQUIRED:

- A. Worker's Compensation - Statutory requirements and benefits.
- B. Employers Liability - \$100,000.00
- C. General Liability - \$500,000.00 combined single limit. Virginia Tech and the Commonwealth of Virginia shall be named as an additional insured with respect to goods/services being procured. This coverage is to include Premises/Operations Liability, Products and Completed Operations Coverage, Independent Contractor's Liability, Owner's and Contractor's Protective Liability and Personal Injury Liability.
- D. Automobile Liability - \$500,000.00

The contractor agrees to be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from the payment of all sums of money by reason of any claim against them arising out of any and all occurrences resulting in bodily or mental injury or property damage that may happen to occur in connection with and during the performance of the contract, including but not limited to claims under the Worker's Compensation Act. The contractor agrees that it will, at all times, after the completion of the work, be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from all liabilities resulting from bodily or mental injury or property damage directly or indirectly arising out of the performance or nonperformance of the contract.

- G. NOTICES:** Any notices to be given by either party to the other pursuant to any contract resulting from this solicitation shall be in writing, hand delivered or mailed to the address of the respective party at the following address

If to Contractor:

Fisher Scientific

Kathy Weber, Academic Industry Director

830 S. Front St.

Philadelphia, PA 19147

If to Virginia Tech:

Virginia Polytechnic Institute and State University (Virginia Tech)

Attn: Patricia Mullins, Assistant Director of Procurement for Research Support

Procurement Department (MC 0333)

North End Center, Suite 2100

300 Turner Street NW

Blacksburg, Virginia 24061

and

Virginia Higher Education Procurement Cooperative

Attn: Mr. Ryan Balber, Director

University of Virginia

1001 N. Emmet St

PO Box 400202

Charlottesville, VA 2290

H. RETURN OF GOODS. Products judged by Virginia Tech not to be acceptable may be rejected. All costs associated with rejection are the responsibility of the Contractor. Over-shipments will be accepted at Virginia Tech's discretion. The Contractor will be responsible for the disposition of all defective, damaged or rejected over-shipped products. Laboratory apparatus returns will include original packing materials and operation manuals. Return authorizations shall be provided by the Contractor within 14 calendar days of verbal notification.

I. DELIVERY. FOB Destination (Freight included in price). This is inclusive of dry ice and hazardous material charges and any fuel surcharges. The Contractor should maintain an inventory sufficient to make delivery to Virginia Tech within two (2) working days from the date the order was placed. Products identified on the Hot List will be delivered on the next business day. The Contractor shall deliver to all receiving docks or inside delivery as designated by Virginia Tech.

"Non-standard transportation" charges may be specifically authorized by Virginia Tech for shipments that require special handling. An example would be one-time service for a large item of equipment that requires special carriers and transportation equipment for delivery.

J. WARRANTY. All products purchased under this contract will minimally include the Original Equipment Manufacturers warranty and will pass directly to Virginia Tech. Products which fail after acceptance and installation will be covered under warranty. The decision to replace such products or accept warranty repair will be at the sole discretion of Virginia Tech, except in the event Virginia Tech fails to provide timely notice to

the Contractor of product failure. The Contractor should provide a toll-free number for requests for warranty service for all equipment sold under the contract. Any maintenance agreements available from the Contractor should be provided to Virginia Tech as an option and priced as discounted off list price.

- K. **SEVERAL LIABILITY:** Virginia Tech will be severally liable to the extent of its purchases made against any contract resulting from this solicitation. Applicable entities described herein will be severally liable to the extent of their purchases made against any contract resulting from this solicitation.

Example of Incentive Program Calculation and Payout

	Incentive Program					
	Up to 105% of prior year baseline with 85% guaranteed					
	Franchise Sales Dollar Range	Rebate %				
	85%-105% vs Prior Year Baseline	2%				
	>105% vs. Prior Year Baseline	5%				
	Achievement will be based on the performance results of all VASCUPP schools participation performance, not individual schools performance					
	Payment will be made to each individual school, based on their performance- 2% and 5% payout					
	Example:					
	Quarterly Franchise Sales	Growth vs Baseline	Quarterly Payout Calculation	Quarterly Payout Dollar Amount		
	\$ 4,532,000	3%	$\$4,532,000 \times 0.02$	\$ 90,640.00		
	\$ 4,620,000	5%	$\$4,620,000 \times 0.02$	\$ 92,400.00		
	\$ 4,708,000	7%	$(\$4,620,000 \times 0.02) + ((\$4,708,000 - \$4,620,000) \times 0.05)$	\$ 96,800.00		
	Example of Individual School Payout Based on VASCUPP 3% Growth					
School	Quarterly Franchise Sales	Growth vs Baseline	Quarterly Payout Calculation	Quarterly Payout Dollar Amount		
VA Tech	\$ 900,000.00	10%	$\$900,000 \times 0.02$	\$ 18,000.00		
UVA	\$ 1,200,000.00	1%	$\$1,200,000 \times 0.02$	\$ 24,000.00		

Request for Proposal #0046374

For

General Laboratory Supplies and Equipment

Date: August 1, 2016

Note: This public body does not discriminate against faith-based organizations in accordance with the *Code of Virginia*, § 2.2-4343.1 or against a bidder or offeror because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment.

RFP 0046374

GENERAL INFORMATION FORM

QUESTIONS: All inquiries for information regarding this solicitation should be directed to: Tom Kaloupek, Procurement Analyst, Phone: (540) 231-6221 e-mail: kals.vt.edu.

DUE DATE: Proposals will be received until September 14, 2016 at 3:00 PM. Failure to submit proposals to the correct location by the designated date and hour will result in disqualification.

ADDRESS: Proposals should be mailed or hand delivered to: Virginia Polytechnic Institute and State University (Virginia Tech), Procurement Department (MC 0333) North End Center, Suite 2100, 300 Turner Street NW, Blacksburg, Virginia 24061. Reference the due date and hour, and RFP Number in the lower left corner of the return envelope or package.

Please note that USPS is delivered to a central location and is not delivered directly to Procurement. Allow extra time if sending proposal via USPS. It is the vendor's responsibility to ensure proposals are received in the Procurement office at the appropriate date and time for consideration.

TYPE OF BUSINESS: (Please check all applicable classifications). If your classification is certified by the Virginia Department of Small Business and Supplier Diversity (SBSD), provide your certification number: _____. For assistance with SWaM certification, visit the SBSD website at <http://www.dmbe.virginia.gov/>.

____ **Large**

____ **Small business** – An independently owned and operated business which, together with affiliates, has 250 or fewer employees or average annual gross receipts of \$10 million or less averaged over the previous three years. Commonwealth of Virginia Department of Small Business and Supplier Diversity certified women-owned and minority-owned business shall also be considered small business when they have received SBSD small business certification.

____ **Women-owned business** – A business concern that is at least 51% owned by one or more women who are U. S. citizens or legal resident aliens, or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest is owned by one or more women who are citizens of the United States or non-citizens who are in full compliance with the United States immigration law, and both the management and daily business operations are controlled by one or more women who are U. S. citizens or legal resident aliens.

____ **Minority-owned business** – A business concern that is at least 51% owned by one or more minority individuals (see Section 2.2-1401, Code of Virginia) or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest in the corporation, partnership, or limited liability company or other entity is owned by one or more minority individuals and both the management and daily business operations are controlled by one or more minority individuals.

COMPANY INFORMATION/SIGNATURE: In compliance with this Request For Proposal and to all the conditions imposed therein and hereby incorporated by reference, the undersigned offers and agrees to furnish the goods or services in accordance with the attached signed proposal and as mutually agreed upon by subsequent negotiation.

I. PURPOSE:

The purpose of this Request for Proposal (RFP) is to solicit sealed proposals to establish one or more contracts through competitive negotiations for general laboratory supplies, instruments and related items and services by Virginia Polytechnic Institute and State University (Virginia Tech), an agency of the Commonwealth of Virginia and on behalf of the Virginia Higher Education Procurement Cooperative (VHEPC).

II. CONTRACT PERIOD:

The term of this contract is for five (5) year(s), or as negotiated. There will be an option for two three-year renewals, or as negotiated.

III. BACKGROUND:

This solicitation is being issued by Virginia Tech on behalf of the Virginia Higher Education Procurement Cooperative (VHEPC), who will manage the contract(s) that are the outcome of this procurement process. See Section V. for a description on the VHEPC.

The intent of this procurement is to enact one or more contracts that will form the basis for a beneficial and mutually supportive long term business relationship with each of the member institutions of the VHEPC. We envision participation by each member institution on preferred basis and active management and stewardship of the contracts by the VHEPC.

In order to be designated as a preferred supplier in this product category, firms must fulfill, to the greatest extent feasible, desired requirements outlined in this document and provide a deep and wide range of products, including but not limited to laboratory consumables, laboratory instruments and equipment, laboratory furniture and repair and calibration services. The complete product line must be available in an electronic and fully automated environment.

Fiscal Year 2015 total expenditure volumes for the highest and second highest distributors in this product category serving VHEPC member institutions were \$20million.

IV. EVA BUSINESS-TO-GOVERNMENT ELECTRONIC PROCUREMENT SYSTEM:

The eVA Internet electronic procurement solution streamlines and automates government purchasing activities within the Commonwealth of Virginia. Virginia Tech, and other state agencies and institutions, have been directed by the Governor to maximize the use of this system in the procurement of goods and services. *We are, therefore, requesting that your firm register as a vendor within the eVA system.*

There are transaction fees involved with the use of eVA. These fees must be considered in the provision of quotes, bids and price proposals offered to Virginia Tech. Failure to register within the eVA system may result in the quote, bid or proposal from your firm being rejected and the award made to another vendor who is registered in the eVA system.

Registration in the eVA system is accomplished on-line. Your firm must provide the necessary information. Please visit the eVA website portal at <http://www.eva.virginia.gov/pages/eva-registration-buyer-vendor.htm> and **register both with eVA and Ariba**. *This process needs to be completed before Virginia Tech can issue your firm a Purchase Order or contract.* If your firm conducts business from multiple geographic locations, please register these locations in your initial registration.

For registration and technical assistance, reference the eVA website at: <http://www.eva.virginia.gov>, or call 866-289-7367 or 804-371-2525.

V. CONTRACT PARTICIPATION:

It is the intent of this solicitation and resulting contract to allow for cooperative procurement. Accordingly, any public or private educational institution located within Virginia or any affiliated corporation and/or partnership of member institutions may access any resulting contract if authorized by the contractor.

It has been agreed that all members of the Virginia Association of State College and University Purchasing Professionals (VASCUPP) will participate in the contracts resulting from this solicitation. VASCUPP currently comprises eleven members who include: The College of William and Mary, George Mason University, James Madison University, Longwood University, Old Dominion University, Radford University, The University of Mary Washington, The University of Virginia, Virginia Commonwealth University, Virginia Military Institute and Virginia Tech.

If authorized by the Contractor, the resultant contract may be extended to the other public and private educational entities based in Virginia to purchase at contract prices in accordance with contract terms. The Contractor shall notify Virginia Tech in writing of any such entities accessing the contract. No modification of this contract or execution of a separate contract is required to participate. The Contractor will provide quarterly usage reports for all entities accessing the Contract. Participating entities shall place their own orders directly with the Contractor and shall fully and independently administer their use of the contract to include contractual disputes, invoicing and payments without direct administration from Virginia Tech. Virginia Tech shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that Virginia Tech is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract no matter the circumstances.

Use of this contract does not preclude any participating entity from using other contracts or competitive processes as the need may be.

VASCUPP is provided analytic and contract management support by the Virginia Higher Education Procurement Cooperative (VHEPC). VHEPC will be the manager for the contract(s) resulting from this solicitation.

VI. STATEMENT OF NEEDS:

A. Basic Requirements. Preferred suppliers must have the widest and deepest product and service offerings possible. Products and services must be available in electronic catalogs that interact seamlessly with various electronic procurement platforms. The latest technology should be employed to make the entire procure-to-pay process electronic.

Deep discounts off list are expected. Pricing may be adjusted downward at any time and upward semi-annually to reflect changes in manufacturers pricing. Contractor must provide full price files to VHEPC in either Access or Microsoft Excel to support price increase requests. VHEPC has 30 days to review price increase requests and reserves the right to challenge increases based on PPI or other relevant market data.

Electronic catalogs should display net prices reflective of discounting. Except for special handling, prices should be inclusive of delivery (FOB Destination).

Preferred suppliers must agree to pay eVA transaction fees and must participate in ghost card payment systems if the member institution employs such a system.

Preferred suppliers will be expected to agree to provide full sales history files to VHEPC quarterly. See Attachment B for the quarterly sales report format. This report will be provided to individual institutions, if requested.

B. Desired Offerings.

1. Special item pricing for high volume products (hotlists). Though VHEPC solely determines which items qualify as high volume, Hot Lists will be developed and maintained jointly by VHEPC and the contractor. Because of the unique requirements of each institution, Hot Lists should be customizable and will be made available for each institution. Hot list pricing should be maintained for a full year, but VHEPC will be able to make revisions semiannually.
 2. Reporting of diversity subcontracting. We desire for preferred suppliers to develop programming within one year of the effective date of the contract that will identify subcontractors who are certified as small, woman-owned and minority-owned (SWAM) businesses with the Commonwealth of Virginia. The database of certified SWAM suppliers can be obtained from the Virginia Department of Small Business and Supplier Diversity. Individual reports for each institution should be prepared and provided on a quarterly basis.
 3. Sales representation. Provide a plan for sales representation for each customer. We recognize that not all institution accounts will warrant full-time on-campus representation. Provide a narrative on how you propose to provide this service.
- C. Addition of new lines of products and services. It is important to have the flexibility in this contract to allow for future events that add value to the relationship. Examples include, but are not limited to, the addition of products and services that are new to the marketplace; the addition to the distribution chain of a new supplier and the acquisition of a complimentary company.
- D. Contract Review. A meeting should be conducted quarterly between the contractor and the contract administrator to review overall performance and resolve any open items. Other subjects to be reported on include contract usage, service levels, price audits, savings, volume rebates, and cost containment actions.
- E. Volume and Growth Incentives. In order to support the growth of the partnership, we look for preferred suppliers to provide financial incentives, payable to each participating institution at the close of each contract year.
- F. Strategic Partnership. To the greatest extent feasible, preferred suppliers will be expected to support VHEPC member institutions by participating and offering sponsorship in outreach events and providing representation that will support the growth and longevity of the procurement consortium concept.

- G. Stronger partnership. During the period of the contract, some institutions may wish to form a stronger partnership. This might be described as moving from being a preferred supplier to becoming the primary supplier. Institutions would expect to assist in a stronger manner and in return, receive additional benefits. We would like to provide for this option in the contract so that it will be available, if desired. Please provide a structure describing how a stronger partnership might work and what elements and expectations would be present.

VII. PROPOSAL PREPARATION AND SUBMISSION:

A. General Requirements

1. RFP Response: In order to be considered for selection, Offerors must submit a complete response to this RFP. **One original and four copies** of each proposal must be submitted to:

Virginia Polytechnic Institute and State University (Virginia Tech)
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

Reference the Due Date and Hour, and RFP Number in the lower left hand corner of the return envelope or package.

No other distribution of the proposals shall be made by the Offeror.

2. Proposal Preparation:

- a. Proposals shall be signed by an authorized representative of the Offeror. All information requested should be submitted. Failure to submit all information requested may result in Virginia Tech requiring prompt submission of missing information and/or giving a lowered evaluation of the proposal. Proposals which are substantially incomplete or lack key information may be rejected by Virginia Tech at its discretion. Mandatory requirements are those required by law or regulation or are such that they cannot be waived and are not subject to negotiation.
- b. Proposals should be prepared simply and economically providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Emphasis should be on completeness and clarity of content.
- c. Proposals should be organized in the order in which the requirements are presented in the RFP. All pages of the proposal should be numbered. Each paragraph in the proposal should reference the paragraph number of the corresponding section of the RFP. It is also helpful to cite the paragraph number, subletter, and repeat the text of the requirement as it appears in the RFP. If a response covers more than one page, the paragraph number and subletter should be repeated at the top of the next page. The proposal should contain a table of contents which cross references the RFP requirements. Information which the offeror desires to present that does not fall within any of the requirements of the RFP should be inserted at an appropriate place or be attached at the end of the proposal and designated as additional material. Proposals that are not organized in this manner risk elimination from consideration if the evaluators are unable to find where the RFP requirements are specifically addressed.

- d. Each copy of the proposal should be bound in a single volume where practical. All documentation submitted with the proposal should be bound in that single volume.
 - e. Ownership of all data, material and documentation originated and prepared for Virginia Tech pursuant to the RFP shall belong exclusively to Virginia Tech and be subject to public inspection in accordance with the Virginia Freedom of Information Act. Trade secrets or proprietary information submitted by an Offeror shall not be subject to public disclosure under the Virginia Freedom of Information Act. However, to prevent disclosure the Offeror must invoke the protections of Section 2.2-4342F of the Code of Virginia, in writing, either before or at the time the data or other materials is submitted. The written request must specifically identify the data or other materials to be protected and state the reasons why protection is necessary. The proprietary or trade secret material submitted must be identified by some distinct method such as highlighting or underlining and must indicate only the specific words, figures, or paragraphs that constitute trade secret or proprietary information. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable and may result in rejection of the proposal.
3. Oral Presentation: Offerors who submit a proposal in response to this RFP may be required to give an oral presentation of their proposal to Virginia Tech. This will provide an opportunity for the Offeror to clarify or elaborate on the proposal but will in no way change the original proposal. Virginia Tech will schedule the time and location of these presentations. Oral presentations are an option of Virginia Tech and may not be conducted. Therefore, proposals should be complete.

B. Specific Requirements

Proposals should be as thorough and detailed as possible so that Virginia Tech may properly evaluate your capabilities to provide the required goods or services. Offerors are required to submit the following information/items as a complete proposal:

1. Provide a summary overview of the company, including geographical operations, unique services provided to the higher education marketplace and envisioned company changes including planned technological advances and acquisitions.
2. Provide detailed information regarding product lines and associated discounts off list prices. Also provide your concepts for providing hot lists to the VASCUPP members. Provide information regarding shipping costs and return policies.
3. Provide your concept for sales support and on-campus representation to VASCUPP member institutions.
4. Provide a statement of agreement with desired structure and frequency of transaction data reporting. Further, provide the Full Price File Template Data. See Attachment C for data elements.
5. Provide information regarding financial incentives that may be available under the preferred supplier concept. Provide an alternate plan that supports an optional stronger relationship as a primary supplier.
6. Participation and Reporting of Small, Women-owned and Minority-owned Business (SWAM) Business:

Describe your plan for utilizing Virginia-certified SWaM subcontractors if awarded a contract. Describe your ability to provide reporting on Virginia-certified SWaM subcontracting spend when requested. If your firm or any business that you plan to subcontract with can be classified as SWaM, but has not been certified by the Virginia Department of Small Business and Supplier Diversity (SBSD), it is expected that, with the active encouragement from the prime contractor, the certification process will be initiated by the subcontractor in a timely manner.

7. The return of the General Information Form and addenda, if any, signed and filled out as required.

VIII. SELECTION CRITERIA AND AWARD:

A. Selection Criteria

Proposals will be evaluated by Virginia Tech using the following:

<u>Criteria</u>	<u>Maximum Point Value</u>
1. Ability to satisfy Basic Requirements as Outlined in Section VI. (A.)	20
2. Specific plans or methodology to be used to provide the services	30
3. Financial benefits including discounts, rebates, and other incentives	40
4. Participation and reporting of Small, Women-Owned and Minority (SWAM) Business subcontractors	10
<hr/>	
Total	100

B. Award To Multiple Offerors:

Selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals on the basis of the evaluation factors included in the Request for Proposals, including price, if so stated in the Request for Proposals. Negotiations shall be conducted with the offerors so selected. Price shall be considered, but need not be the sole determining factor. After negotiations have been conducted with each offeror so selected, the agency shall select the offeror which, in its opinion, has made the best proposal, and shall award the contract to that offeror. The Commonwealth reserves the right to make multiple awards as a result of this solicitation. The Commonwealth may cancel this Request for Proposals or reject proposals at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous. Should the Commonwealth determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror. The award document will be a contract incorporating by reference all the requirements, terms and conditions of the solicitation and the contractor's proposal as negotiated. Virginia Tech reserves the right to make multiple awards.

IX. ADDENDUM:

Any **ADDENDUM** issued for this solicitation may be accessed at <http://www.procurement.vt.edu/html.docs/bids.php>. Since a paper copy of the addendum will not be mailed to you, we encourage you to check the web site regularly.

X. CONTRACT ADMINISTRATION:

- A. Mr. Ryan Balber, Director, Virginia Higher Education Procurement Cooperative or his designee, shall be identified as the Contract Administrator and shall use all powers under the contract to enforce its faithful performance. Mr. Balber's contact information is phone: 434-297-6099. Email: RB7PQ@eservices.virginia.edu.
- B. The Contract Administrator, or his designee, shall determine the amount, quantity, acceptability, fitness of all aspects of the services and shall decide all other questions in connection with the services. The Contract Administrator, or his designee, shall not have authority to approve changes in the services which alter the concept or which call for an extension of time for this contract. Any modifications made must be authorized by the Virginia Tech Procurement Department through a written amendment to the contract.

XI. COMMUNICATIONS:

Communications regarding this solicitation shall be formal from the date of issue, until either a Contractor has been selected or the Procurement Department rejects all proposals. Formal communications will be directed to the procurement officer listed on this solicitation. Informal communications, including but not limited to request for information, comments or speculations regarding this solicitation to any University employee other than a Procurement Department representative may result in the offending Offeror's proposal being rejected.

Written questions regarding this solicitation may be submitted to the Procurement Officer, Tom Kaloupek, at kals@vt.edu. The cutoff date for receipt of questions is Friday, September 2, 2106.

XII. CONTROLLING VERSION OF SOLICITATION:

The PDF version of the solicitation and any addenda issued by Virginia Tech Procurement Services is the mandatory controlling version of the document. Any modification of/or additions to the solicitation by the Offeror shall not modify the official version of the solicitation issued by Virginia Tech Procurement Services. Such modifications or additions to the solicitation by the Offeror may be cause for rejection of the proposal; however, Virginia Tech reserves the right to decide, on a case by case basis, in its sole discretion, whether to reject such a proposal.

XIII. TERMS AND CONDITIONS:

This solicitation and any resulting contract/purchase order shall be governed by the attached terms and conditions, see Attachment A.

XIV. ATTACHMENTS:

Attachment A - Terms and Conditions
Attachment B - Quarterly Sales History Report Format
Attachment C - Full Price File Template

ATTACHMENT A
TERMS AND CONDITIONS

RFP GENERAL TERMS AND CONDITIONS

http://www.procurement.vt.edu/html.docs/terms/GTC_RFP_01012016.pdf

ADDITIONAL TERMS AND CONDITIONS:

- A. ADDITIONAL GOODS AND SERVICES:** The University may acquire other goods or services that the supplier provides than those specifically solicited. The University reserves the right, subject to mutual agreement, for the Contractor to provide additional goods and/or services under the same pricing, terms and conditions and to make modifications or enhancements to the existing goods and services. Such additional goods and services may include other products, components, accessories, subsystems, or related services newly introduced during the term of the Agreement.
- B. ADVERTISING:** In the event a contract is awarded for supplies, equipment, or services resulting from this solicitation, no indication of such sales or services to Virginia Tech will be used in product literature or advertising. The Contractor shall not state in any of the advertising or product literature that the Commonwealth of Virginia or any agency or institution of the Commonwealth has purchased or uses its products or services.
- C. AUDIT:** The Contractor hereby agrees to retain all books, records, and other documents relative to this contract for five (5) years after final payment, or until audited by the Commonwealth of Virginia, whichever is sooner. Virginia Tech, its authorized agents, and/or the State auditors shall have full access and the right to examine any of said materials during said period.
- D. AVAILABILITY OF FUNDS:** It is understood and agreed between the parties herein that Virginia Tech shall be bound hereunder only to the extent of the funds available or which may hereafter become available for the purpose of this agreement.
- E. CANCELLATION OF CONTRACT:** Virginia Tech reserves the right to cancel and terminate any resulting contract, in part or in whole, without penalty, upon 60 days written notice to the Contractor. In the event the initial contract period is for more than 12 months, the resulting contract may be terminated by either party, without penalty, after the initial 12 months of the contract period upon 60 days written notice to the other party. Any contract cancellation notice shall not relieve the Contractor of the obligation to deliver and/or perform on all outstanding orders issued prior to the effective date of cancellation.
- F. CONTRACT DOCUMENTS:** The contract entered into by the parties shall consist of the Request for Proposal including all modifications thereof, the proposal submitted by the Contractor, the written results of negotiations, the Commonwealth Standard Contract Form, all of which shall be referred to collectively as the Contract Documents.
- G. IDENTIFICATION OF BID/PROPOSAL ENVELOPE:** The signed bid or proposal should be returned in a separate envelope or package, sealed and identified as follows:

From: _____
Name of Bidder or Offeror Due Date Time Due

Street or Box No. Solicitation Number

City, State, Zip Code

Solicitation Title

Name of Procurement Officer: _____

The envelope should be addressed to:

VIRGINIA POLYTECHNIC INSTITUTE AND STATE UNIVERSITY (Virginia Tech)
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

The offeror takes the risk that if the envelope is not marked as described above, it may be inadvertently opened and the information compromised, which may cause the proposal to be disqualified. Bids or Proposals may be hand delivered to the designated location in the office issuing the solicitation. No other correspondence or other bids/proposals should be placed in the envelope.

H. INSURANCE:

By signing and submitting a proposal under this solicitation, the Offeror certifies that if awarded the contract, it will have the following insurance coverages at the time the work commences. Additionally, it will maintain these during the entire term of the contract and that all insurance coverages will be provided by insurance companies authorized to sell insurance in Virginia by the Virginia State Corporation Commission.

During the period of the contract, Virginia Tech reserves the right to require the Contractor to furnish certificates of insurance for the coverage required.

INSURANCE COVERAGES AND LIMITS REQUIRED:

A. Worker's Compensation - Statutory requirements and benefits.

B. Employers Liability - \$100,000.00

C. General Liability - \$500,000.00 combined single limit. Virginia Tech and the Commonwealth of Virginia shall be named as an additional insured with respect to goods/services being procured. This coverage is to include Premises/Operations Liability, Products and Completed Operations Coverage, Independent Contractor's Liability, Owner's and Contractor's Protective Liability and Personal Injury Liability.

D. Automobile Liability - \$500,000.00

The contractor agrees to be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from the payment of all sums of money by reason of any claim against them arising out of any and all occurrences resulting in bodily or mental injury or property damage that may happen to occur in connection with and during the performance of the contract, including but not limited to claims under the Worker's Compensation Act. The contractor agrees that it will, at all times, after the completion of the work, be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from all liabilities resulting from bodily or mental injury or property damage directly or indirectly arising out of the performance or nonperformance of the contract.

I. NOTICES: Any notices to be given by either party to the other pursuant to any contract resulting from this solicitation shall be in writing, hand delivered or mailed to the address of the respective party at the following address

If to Contractor: Address Shown On RFP Cover Page
Attention: Name Of Person Signing RFP

If to Virginia Tech:

Virginia Polytechnic Institute and State University (Virginia Tech)
Attn: Patricia Mullins, Assistant Director of Procurement for Research Support
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

and

Virginia Higher Education Procurement Cooperative
Attn: Mr. Ryan Balber, Director
University of Virginia
1001 N. Emmet St
PO Box 400202
Charlottesville, VA 22904

J. PROPOSAL ACCEPTANCE PERIOD: Any proposal received in response to this solicitation shall be valid for (60) days. At the end of the (60) days the proposal may be withdrawn at the written request of the Offeror. If the proposal is not withdrawn at that time it remains in effect until an award is made or the solicitation is cancelled.

K. RETURN OF GOODS. Products judged by Virginia Tech not to be acceptable may be rejected. All costs associated with rejection are the responsibility of the Contractor. Over-shipments will be accepted at Virginia Tech's discretion. The Contractor will be responsible for the disposition of all defective, damaged or rejected over-shipped products. Laboratory apparatus returns will include original packing materials and operation manuals. Return authorizations shall be provided by the Contractor within 14 calendar days of verbal notification.

L. DELIVERY. FOB Destination (Freight included in price). This is inclusive of dry ice and hazardous material charges and any fuel surcharges. The Contractor should maintain an inventory sufficient to make delivery to Virginia Tech within two (2) working days from the date the order was placed. Products identified on the Hot List will be delivered on the next business day. The Contractor shall deliver to all receiving docks or inside delivery as designated by Virginia Tech.

"Non-standard transportation" charges may be specifically authorized by Virginia Tech for shipments that require special handling. An example would be one-time service for a large item of equipment that requires special carriers and transportation equipment for delivery.

M. WARRANTY. All products purchased under this contract will minimally include the Original Equipment Manufacturers warranty and will pass directly to Virginia Tech. Products which fail after acceptance and installation will be covered under warranty. The decision to replace such products or accept warranty repair will be at the sole discretion of Virginia Tech, except in the event Virginia Tech fails to provide timely notice to the Contractor of product failure. The Contractor should provide a toll-free number for requests for warranty service for all equipment sold under the contract. Any

maintenance agreements available from the Contractor should be provided to Virginia Tech as an option and priced as discounted off list price.

- N. SEVERAL LIABILITY:** Virginia Tech will be severally liable to the extent of its purchases made against any contract resulting from this solicitation. Applicable entities described herein will be severally liable to the extent of their purchases made against any contract resulting from this solicitation.

RFP GENERAL TERMS AND CONDITIONS

1. **ANTI-DISCRIMINATION:** By submitting their proposals, offerors certify to the Commonwealth that they will conform to the provisions of the Federal Civil Rights Act of 1964, as amended, as well as the Virginia Fair Employment Contracting Act of 1975, as amended, where applicable, the Virginians With Disabilities Act, the Americans With Disabilities Act, and Section 2.2-4311 of the Virginia Public Procurement Act. If the award is made to a faith-based organization, the organization shall not discriminate against any recipient of goods, services, or disbursements made pursuant to the contract on the basis of the recipient's religion, religious belief, refusal to participate in a religious practice, or on the basis of race, age, color, gender or national origin and shall be subject to the same rules as other organizations that contract with public bodies to account for the use of the funds provided; however, if the faith-based organization segregates public funds into separate accounts, only the accounts and programs funded with public funds shall be subject to audit by the public body. (*Code of Virginia*, § 2.2-4343.1 E).
In every contract over \$10,000 the provisions in A and B below apply:
 - A. During the performance of this contract, the Contractor agrees as follows:
 - 1) The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
 - 2) The Contractor, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, will state that such Contractor is an equal opportunity employer.
 - 3) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this Section.
 - B. The Contractor will include the provisions of A. above in every subcontract or purchase order over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.
2. **ANTITRUST:** By entering into a contract, the Contractor conveys, sells, assigns, and transfers to Virginia Tech and the Commonwealth of Virginia all rights, title and interest in and to all causes of the action it may now have or hereafter acquire under the antitrust laws of the United States and the Commonwealth of Virginia, relating to the particular goods or services purchased or acquired by Virginia Tech and the Commonwealth of Virginia under said contract.
3. **APPLICABLE LAWS AND COURTS:** This solicitation and any resulting contract shall be governed in all respects by the laws of the Commonwealth of Virginia and any litigation with respect thereto shall be brought in the courts of the Commonwealth. The Contractor shall comply with applicable federal, state and local laws and regulations.
4. **ASSIGNMENT OF CONTRACT:** A contract shall not be assignable by the Contractor in whole or in part without the written consent of Virginia Tech.
5. **CHANGES TO THE CONTRACT:** Changes can be made to the Contract in any one of the following ways:
 - A. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract.
 - B. Virginia Tech may order changes within the general scope of the contract at any time by written notice to the Contractor. Changes within the scope of the contract include, but are not limited to, things such as the method of packing or shipment and the place of delivery or installation. The Contractor shall comply with the notice upon receipt. The Contractor shall be compensated for any additional costs incurred as the result of such order and shall give Virginia Tech a credit for any savings. Said compensation shall be determined by one of the following methods:
 - 1) By mutual agreement between the parties in writing; or
 - 2) By agreeing upon a unit price or using a unit price set forth in the contract, if the work to be done can be expressed in units, and the Contractor accounts for the number of units of work performed, subject to Virginia Tech's right to audit the Contractor's records and/or to determine the correct number of units independently; or
 - 3) By ordering the Contractor to proceed with the work and to keep a record of all costs incurred and savings realized. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The Contractor shall present Virginia Tech with all vouchers and records of expenses incurred and savings realized. Virginia Tech shall have the right to audit the records of the Contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be asserted by written notice to Virginia Tech within thirty (30) days from the date of receipt of the written order from Virginia Tech. If the parties fail to agree on an amount of adjustment, the question of an increase or decrease in the contract price or time for performance shall be resolved in accordance with the procedures for resolving disputes provided by the Disputes Clause of this contract or, if there is none, in accordance with the disputes provisions of the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and Their Vendors. Neither the existence of a claim or a dispute resolution process, litigation or any other provision of this contract shall excuse the Contractor from promptly complying with the changes ordered by Virginia Tech or with the performance of the contract generally.
6. **CLAIMS:** Contractual claims, whether for money or other relief, shall be submitted in writing to the Director of Procurement, Procurement Department, North End Center, Suite 2100, Virginia Tech, 300 Turner Street NW, Blacksburg, Virginia 24061, no later than sixty (60) days after final payment; however, written notice of the contractor's intention to file such claim shall have been given at the time of the occurrence or beginning of the work upon which the claim is based. Nothing herein shall preclude a contract from requiring submission of an invoice for final payment within a certain time after completion and acceptance of the work or acceptance

of the goods. Pending claims shall not delay payment of amounts agreed due in the final payment (*Code of Virginia*, Section 2.2-4363). A contractor may not institute legal action prior to receipt of the Director of Procurement decision on the claim, unless that office fails to render such decision within thirty (30) days. The decision of the Director of Procurement shall be final and conclusive unless the contractor, within six (6) months of the date of the final decision on the claim, institutes legal action as provided in the *Code of Virginia*, Section 2.2-4364.

7. **CLARIFICATION OF TERMS:** If any prospective offeror has questions about the specifications or other solicitation documents, the prospective offeror should contact the buyer whose name appears on the face of the solicitation no later than five working days before the due date. Any revisions to the solicitation will be made only by addendum issued by the buyer.
8. **COMMONWEALTH OF VIRGINIA PURCHASING MANUAL FOR INSTITUTIONS OF HIGHER EDUCATION AND THEIR VENDORS:** This solicitation is subject to the provisions of the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and Their Vendors and any revisions thereto, which are hereby incorporated into this contract in their entirety. A copy of the manual is available for review in the Virginia Tech Procurement Department or by accessing URL <http://www.procurement.vt.edu> on the Web.
9. **CONFLICT OF INTEREST:** Virginia Tech is a public university, subject to the laws of the Commonwealth of Virginia. Among these is the State and Local Government Conflict of Interests Act (The Act). The Act can be accessed via <http://leg1.state.va.us/cgi-bin/legp504.exe?000+cod+2.2-3100>. You may wish to consult the provisions of The Act before submitting a response to the Request for Proposal. Additionally, by submitting a proposal or by entering into any resulting contract, the offeror certifies that it is in full compliance with the provisions of The Act as to this RPF.
10. **CONTRACT PARTICIPATION:** Any public body, public or private health or educational institutions, or Virginia Tech's affiliated corporations and/or partnerships may access any resulting contract/purchase order if authorized by the contractor. Participating entities shall place their own order(s) directly with the Contractor and shall fully and independently administer their use of the contract/purchase order to include contractual disputes, invoicing and payments without direct administration from Virginia Tech. Virginia Tech shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract/purchase order. It is understood and agreed that Virginia Tech is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract/purchase order no matter the circumstances.
11. **DEBARMENT STATUS:** By submitting their proposals, offerors certify that they are not currently debarred by the Commonwealth of Virginia from submitting bids or proposals on contracts for the type of goods and/or services covered by this solicitation, nor are they an agent of any person or entity that is currently so debarred.
12. **DEFAULT:** In case of failure to deliver goods or services in accordance with the contract terms and conditions, Virginia Tech, after due oral or written notice, may procure them from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies which Virginia Tech may have.
13. **DRUG-FREE WORKPLACE:** In every contract over \$10,000 the following provisions apply: During the performance of this contract, the Contractor agrees to (i) provide a drug-free workplace for the Contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the Contractor that the Contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.
For the purposes of this section, "drug-free workplace" means a site for the performance of work done in connection with a specific contract awarded to a Contractor the employees of whom are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the contract.
14. **EO/AA STATEMENT:** If this contract is a covered government contract or subcontract, contractors and subcontractors shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status or disability.
Virginia Tech does not discriminate against employees, students, or applicants on the basis of age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, or veteran status; or otherwise discriminate against employees or applicants who inquire about, discuss, or disclose their compensation or the compensation of other employees, or applicants; or any other basis protected by law.
For inquiries regarding non-discrimination policies, contact the Office of Equity and Access at 540-231-2010 or Virginia Tech, North End Center, Suite 2300 (0318), 300 Turner St. NW, Blacksburg, VA 24061.
15. **ETHICS IN PUBLIC CONTRACTING:** By submitting their proposals, offerors certify that their proposals are made without collusion or fraud and that they have not offered or received any kickbacks or inducements from any other offeror, supplier, manufacturer or subcontractor in connection with their proposal, and that they have not conferred on any public employee having official responsibility for this procurement transaction any payment, loan, subscription, advance, deposit of money, services or anything of more than nominal value, present or promised unless consideration of substantially equal or greater value was exchanged.
16. **eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION:** The eVA Internet electronic procurement solution, web site portal www.eva.state.va.us, streamlines and automates government purchasing activities in the Commonwealth. The portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services

to Virginia Tech should participate in the eVA Internet e-procurement solution either through the eVA Basic Vendor Registration Service or eVA Premium Vendor Registration Service. Failure to register may result in the proposal being rejected.

17. **FACSIMILE PROPOSALS:** Facsimile **unsealed** proposals received in the Virginia Tech Procurement Department prior to the time and date designated for proposal submission will be accepted.

For **sealed** Request for Proposal (RFP) programs, an offeror may fax a proposal to a **non-Virginia Tech** third party, who in turn must deliver it, with the number of copies specified in the RFP, to the Procurement Department in a sealed envelope before the proposal due date and time. All information requested in the Proposal Preparation and Submission section of the RFP must be delivered with each copy of the proposal.

18. **IMMIGRATION REFORM AND CONTROL ACT OF 1986:** By submitting their proposals, the offerors certify that they do not and will not during the performance of this contract employ illegal alien workers or otherwise violate the provisions of the federal Immigration Reform and Control Act of 1986.

19. **INDEMNIFICATION:** Contractor agrees to indemnify, defend and hold harmless Virginia Tech and the Commonwealth of Virginia and their officers, agents, and employees from any claims, damages and actions of any kind or nature whether at law or in equity, arising from or caused by the use of any materials, goods, or equipment of any kind or nature, furnished by the contractor/any services of any kind or nature furnished by the contractor, provided that such liability is not attributable to the sole negligence of Virginia Tech or failure of Virginia Tech to use the materials, goods, or equipment in the manner already and permanently described by the contractor on the materials, goods or equipment delivered.

20. **INDEPENDENT CONTRACTOR:** The contractor shall not be an employee of Virginia Tech, but shall be an independent contractor. Nothing in this agreement shall be construed as authority for the contractor to make commitments which shall bind Virginia Tech, or to otherwise act on behalf of Virginia Tech, except as Virginia Tech may expressly authorize in writing.

21. **LATE PROPOSALS:** To be considered for selection, proposals must be received by the Virginia Tech Procurement Department, Ste 2100, Virginia Tech, 300 Turner Street NW, Blacksburg, Virginia 24061, by the designated date and hour. The official time used in the receipt of proposals is that time on the automatic time stamp machine in the Virginia Tech Procurement Department. Proposals received in the Virginia Tech Procurement Department after the date and hour designated are automatically disqualified and will not be considered. Virginia Tech is not responsible for delays in the delivery of mail by the U.S. Postal Service, private couriers, the intrauniversity mail system, or another means of delivery. It is the sole responsibility of the offeror to insure that its proposal reaches the Virginia Tech Procurement Department by the designated date and hour.

22. **MANDATORY USE OF VIRGINIA TECH FORMS AND TERMS AND CONDITIONS:** Failure to submit a proposal on the official Virginia Tech form provided for that purpose may be a cause for rejection of the proposal. Modification of or additions to the General Terms and Conditions of the solicitation may be cause for rejection of the proposal; however, Virginia Tech reserves the right to decide, on a case by case basis, in its sole discretion, whether to reject such a proposal.

23. **NONDISCRIMINATION OF CONTRACTORS:** An offeror or contractor shall not be discriminated against in the solicitation or award of this contract because of race, religion, color, sex, national origin, age, disability, faithbased organizational status, any other basis prohibited by state law relating to discrimination in employment or because the offeror employs ex-offenders unless the state agency, department or institution has made a written determination that employing ex-offenders on the specific contract is not in its best interest. If the award of this contract is made to a faith-based organization and an individual, who applies for or receives goods, services, or disbursements provided pursuant to this contract objects to the religious character of the faith-based organization from which the individual receives or would receive the goods, services, or disbursements, the public body shall offer the individual, within a reasonable period of time after the date of his objection, access to equivalent goods, services, or disbursements from an alternative provider.

24. **NONVISUAL ACCESS TO TECHNOLOGY:** All information technology which, pursuant to this Agreement, is purchased or upgraded by or for the use of (the "Technology") Virginia Tech shall comply with the following nonvisual access standards from the date of purchase or upgrade until the expiration of this Agreement:

- (i) effective, interactive control and use of the Technology shall be readily achievable by nonvisual means;
 - (ii) the Technology equipped for nonvisual access shall be compatible with the information technology used by other individuals with whom any blind or visually impaired user of the Technology interacts;
 - (iii) nonvisual access technology shall be integrated into any networks used to share communications among employees, program participants or the public; and
 - (iv) the technology for nonvisual access shall have the capability of providing equivalent access by nonvisual means to telecommunications or other interconnected network services used by persons who are not blind or visually impaired.
- Compliance with the foregoing nonvisual access standards shall not be required if the head of the using agency, institution or political subdivision determines that (i) the Technology is not available with nonvisual access because the essential elements of the Technology are visual and (ii) nonvisual equivalence is not available.

Installation of hardware, software, or peripheral devices used for nonvisual access is not required when the Technology is being used exclusively by individuals who are not blind or visually impaired, but applications programs and underlying operating systems (including the format of the data) used for the manipulation and presentation of information shall permit the installation and effective use of nonvisual access software and peripheral devices

If requested, the Contractor must provide a detailed explanation of how compliance with the foregoing nonvisual access standards is achieved and a validation of concept demonstration.

The requirements of this Paragraph shall be construed to achieve full compliance with the Information Technology Access Act, § 2.2-3500 through 2.2-3504 of the Code of Virginia.

25. **PARKING PERMITS:** Virginia Tech Parking Services requires the purchase and display of a parking permit for all vendor/business/contractor vehicles, privately and company owned, that park on campus. The cost of the permit is the same as the faculty/staff permit. Permit options include one year, six months, three months, summer, or day. Permits are available through application at Virginia Tech Parking Services, 455 Research Center Drive, Blacksburg, Virginia 24061. Additional information is available at <http://www.parking.vt.edu/vbc.htm> or by calling Parking Services at (540) 231-3200.

26. **PAYMENT:**

A. **TO PRIME CONTRACTORS:**

- 1) Invoices for items ordered, delivered and accepted shall be submitted by the Contractor directly to the payment address shown on the purchase order/contract. All invoices shall show the Virginia Tech or state contract number and/or purchase order number; social security number (for individual contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations).
- 2) Any payment terms requiring payment in less than 30 days will be regarded as requiring payment 30 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 30 days, however.
- 3) All goods or services provided under this contract or purchase order, that are to be paid for with public funds, shall be billed by the Contractor at the contract price, regardless of which public agency is being billed.
- 4) The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized under the Virginia Debt Collection Act.
- 5) Unreasonable Charges. Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Commonwealth shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification. The provisions of this section do not relieve an agency of its prompt payment obligations with respect to those charges which are not in dispute (*Code of Virginia*, § 2.2-4363).

B) **TO SUBCONTRACTORS:**

- 1) A contractor awarded a contract under this solicitation is hereby obligated:
 - a) To pay the subcontractor(s) within seven (7) days of the contractor's receipt of payment from the Commonwealth for the proportionate share of the payment received for work performed by the subcontractor(s) under the contract; or
 - b) To notify Virginia Tech and the subcontractor(s), in writing, of the contractor's intention to withhold payment and the reason. The contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the contract) on all amounts owed by the contractor that remain unpaid seven (7) days following receipt of payment from the Commonwealth, except for amounts withheld as stated in b) above. The date of mailing of any payment by U.S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the Commonwealth.

27. **PRECEDENCE OF TERMS:** Paragraphs 1, 2, 3, 7, 8, 9, 13, 15, 18, and 19 of these General Terms and Conditions shall apply in all instances. In the event there is a conflict between any of the other General Terms and Conditions and any Special Terms and Conditions in this solicitation, the Special Terms and Conditions shall apply.

28. **PUBLIC NOTICE OF AWARD:** Public notice of the purchase order/contract award will be publicly posted on the DGS/DPS eVA web site www.eva.state.va.us. Award information may also be obtained by contacting the buyer whose name appears on the solicitation.

29. **QUALIFICATIONS OF OFFERORS:** Virginia Tech may make such reasonable investigations as deemed proper and necessary to determine the ability of the offeror to perform the work/furnish the item(s) and the offeror shall furnish to Virginia Tech all such information and data for this purpose as may be requested. Virginia Tech reserves the right to inspect offeror's physical facilities prior to award to satisfy questions regarding the offeror's capabilities. Virginia Tech further reserves the right to reject any proposal if the evidence submitted by, or investigations of, such offeror fails to satisfy Virginia Tech that such offeror is properly qualified to carry out the obligations of the contract and to complete the work/furnish the item(s) contemplated therein.

30. **SMALL, WOMEN, AND MINORITY-OWNED (SWAM) BUSINESS SUBCONTRACTING AND EVIDENCE OF COMPLIANCE:**

- A. Where it is practicable for any portion of the awarded contract to be subcontracted to other suppliers, the contractor is encouraged to offer such business to small, women, and/or minority-owned (SWAM) business. If SWAM subcontractors are used, the prime contractor agrees to report the use of SWAM subcontractors by providing the Owner at a minimum the following information: name of firm, SBSD SWAM certification number, phone number, total dollar amount subcontracted, category type (small, women, or minority-owned), and type of product/service provided. Note that SWAM vendors MUST be certified with the Virginia Department of Small Business and Supplier Diversity (SBSD) <http://www.sbsd.virginia.gov>.

B. Definitions:

1. **Small business** – An independently owned and operated business which, together with affiliates, has 250 or fewer employees or average annual gross receipts of \$10 million or less averaged over the previous three years. Virginia Department of Small Business and Supplier Diversity (SBSD) certified women-owned and minority-owned business shall also be considered small business when they have received SBSD small business certification.

2. **Women-owned business** – A business concern that is at least 51% owned by one or more women who are U. S. citizens or legal resident aliens, or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest is owned by one or more women who are citizens of the United States or non-citizens who are in full compliance with the United States immigration law, and both the management and daily business operations are controlled by one or more women who are U. S. citizens or legal resident aliens.
3. **Minority-owned business** – A business concern that is at least 51% owned by one or more minority individuals (see Section 2.2-1401, Code of Virginia) or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest in the corporation, partnership, or limited liability company or other entity is owned by one or more minority individuals and both the management and daily business operations are controlled by one or more minority individuals.
4. **Minority individual** – means an individual who is a citizen of the United States or a non-citizen who is in full compliance with United States immigration law and who satisfies one or more of the following definitions:
 - a. "African American" means a person having origins in any of the original peoples of Africa and who is regarded as such by the community of which this person claims to be a part.
 - b. "Asian American" means a person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands, including but not limited to Japan, China, Vietnam, Samoa, Laos, Cambodia, Taiwan, Northern Marianas, the Philippines, a U. S. territory of the Pacific, India, Pakistan, Bangladesh, or Sri Lanka and who is regarded as such by the community of which this person claims to be a part.
 - c. "Hispanic American" means a person having origins in any of the Spanish-speaking peoples of Mexico, South or Central America, or the Caribbean Islands or other Spanish or Portuguese cultures and who is regarded as such by the community of which this person claims to be a part.
 - d. "Native American" means a person having origins in any of the original peoples of North America and who is regarded as such by the community of which this person claims to be a part or who is recognized by a tribal organization.
- C. All Small, Woman-owned, Minority-owned and Disabled Veteran-owned businesses who meet the definition established by the Code of Virginia as certifiable are strongly encouraged to obtain certification with the Virginia Department of Small Business and Supplier Diversity (SBSD).
31. **TAXES:** Sales to Virginia Tech and the Commonwealth of Virginia are normally exempt from State sales tax, State sales and use tax certificates of exemption, Form ST-12, will be issued upon request. Deliveries against this contract shall be free of Federal excise and transportation taxes. The Commonwealth's excise tax exemption registration number is 54-73-0076K.
32. **TESTING AND INSPECTION:** Virginia Tech reserves the right to conduct any test/inspection it may deem advisable to assure supplies and services conform to the specification.
33. **TRANSPORTATION AND PACKAGING:** By submitting their proposals, all offerors certify and warrant that the price(s) offered are for FOB destination and include only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped. Except as otherwise specified herein, standard commercial packaging, packing and shipping containers shall be used. All shipping containers shall be legibly marked or labeled on the outside with purchase order number, commodity description, and quantity.
34. **USE OF BRAND NAMES:** Unless otherwise provided in this solicitation; the name of a certain brand, make or manufacturer does not restrict offerors to the specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which Virginia Tech in its sole discretion determines to be equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The offeror is responsible to clearly and specifically indicate the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable Virginia Tech to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Unless the offeror clearly indicates in its proposal that the product offered is an "equal" product, such proposal will be considered to offer the brand name product referenced in the solicitation.

Re: Request for Proposal #46374 – General Laboratory Supplies and Equipment

Dear Tom:

Fisher Scientific is pleased to present our documents to Virginia Tech in response to your Request for Proposal #46374. We understand that Virginia Tech has issued this Request for Proposal on behalf of the Virginia Association of State Colleges and University Purchasing Professionals (VASCUPP). All VASCUPP members will have access to any contract that results from this Request for Proposal.

We appreciate the opportunity to present our offer and believe that it reflects the desired project goals and objectives that VA Tech has stated in the RFP documentation—specifically the need that a supplier offer the widest and deepest product and service offerings possible, deep discounts with special pricing for high-volume items, a growth incentive and a plan for our sales representatives to service all 11 VASCUPP schools. Together, these will lower VASCUPP's overall total cost

Product and Service Offerings

As the channel-to-market for Thermo Fisher Scientific, Fisher Scientific is a clear channel of choice and leading global provider of more than 1,000,000 products and services from over 10,000 suppliers. Our experience in a number of markets—e.g., pharmaceutical, biotech, academic, government, industrial, food and agriculture, safety—positions us to meet the product and service needs of all participating entities.

Our company portfolio is represented by **five premier brands**: Thermo Scientific, Applied Biosystems, Invitrogen, Fisher Scientific, and Unity Lab Services.

Pricing and Financial Benefits

Fisher Scientific is pleased to offer all the VASCUPP schools deep discounts off of list price on all laboratory commodities. In addition to the discounts off of list, we created hot lists with special item pricing for high-volume products. We know that each school may perform different research, and so their high-volume items may differ from school to school. Because of this, Fisher Scientific has customized individual hot lists for each of the large six (6) schools and one combined the hot list for the five (5) smaller schools. Please see the attachment provided.

Fisher Scientific understands that research and grant monies can fluctuate from year to year. With that, we know that the University's spend with suppliers can also fluctuate year to year. For that reason, Fisher Scientific is offering a franchise **volume incentive** that annually compensates the institutions, even if the previous year's spend has not been reached.

In addition, Fisher Scientific would also like to offer the University a **growth incentive** to reward the University for franchise growth above five percent (5%) of the previous year spend.

The **two incentives** are offered to each of the 11 VASCUPP schools. The incentives will be paid out annually for those institutions that qualify.

- One percent (1%) payout on franchise spend, from dollar one, if 95% - 105% of prior year baseline spend is reached.
- If the University grows franchise spend more than 105% of the prior year baseline, Fisher Scientific will payout an additional incentive of 5% back for every dollar above the 105% threshold.

Early Payment Incentive

- Fisher Scientific is offering all VASCUPP institutions an early payment incentive of 1.5% 10, Net 30 days.

Savings

Savings Chart	
Hot List Savings:	\$460,000
Transportation Charges Savings:	\$402,438
Ice Charges Savings:	\$ 39,138
Hazardous Savings:	\$ 68,682
Fuel Surcharge Savings:	\$ 63,270
Total	\$1,033,528

Sales Coverage

Through our seven (7) sales representatives, Fisher Scientific is able to offer each VASCUPP school the highest level of customer service in the industry. All but one of our representatives lives in the Commonwealth, so they are local and able to meet regularly with both purchasing and the end-user community.

Each of these Sales Representatives has a plan for servicing his or her school. The plan includes regularly scheduled days on campus, work days with supplier representatives, supplier shows and seminars, equipment demonstrations, and much more. Our representatives have the latest electronic communications technology so they can access the internet for technical information, quotes, inventory levels and whatever else they may need to meet the needs of the institution in real time. Again, our team offers VASCUPP the highest level of service in the industry.

Strong Partnership

Fisher Scientific understands that during this contract, some VASCUPP institutions may wish to form a stronger, strategic partnership. We acknowledge that there are many benefits to both the institution and Fisher Scientific if such a relationship is established. Many of the benefits are financial and can have cost savings above our contract offer today. We welcome the opportunity to meet with any of the VASCUPP schools who wish to discuss a primary contract position with Fisher Scientific.

Sincerely,

A handwritten signature in black ink that reads 'Kathy Weber'.

ONE SOURCE. INFINITE SOLUTIONS.

I. PURPOSE:

The purpose of this Request for Proposal (RFP) is to solicit sealed proposals to establish one or more contracts through competitive negotiations for general laboratory supplies, instruments and related items and services by Virginia Polytechnic Institute and State University (Virginia Tech), an agency of the Commonwealth of Virginia and on behalf of the Virginia Higher Education Procurement Cooperative (VHEPC).
Fisher Scientific acknowledges.

II. CONTRACT PERIOD:

The term of this contract is for five (5) year(s), or as negotiated. There will be an option for two three-year renewals, or as negotiated.
Fisher Scientific acknowledges.

III. BACKGROUND:

This solicitation is being issued by Virginia Tech on behalf of the Virginia Higher Education Procurement Cooperative (VHEPC), who will manage the contract(s) that are the outcome of this procurement process. See Section V. for a description on the VHEPC.

The intent of this procurement is to enact one or more contracts that will form the basis for a beneficial and mutually supportive long term business relationship with each of the member institutions of the VHEPC. We envision participation by each member institution on preferred basis and active management and stewardship of the contracts by the VHEPC.

In order to be designated as a preferred supplier in this product category, firms must fulfill, to the greatest extent feasible, desired requirements outlined in this document and provide a deep and wide range of products, including but not limited to laboratory consumables, laboratory instruments and equipment, laboratory furniture and repair and calibration services. The complete product line must be available in an electronic and fully automated environment.

Fiscal Year 2015 total expenditure volumes for the highest and second highest distributors in this product category serving VHEPC member institutions were \$20million.
Fisher Scientific acknowledges.

IV. EVA BUSINESS-TO-GOVERNMENT ELECTRONIC PROCUREMENT SYSTEM:

The eVA Internet electronic procurement solution streamlines and automates government purchasing activities within the Commonwealth of Virginia. Virginia Tech, and other state agencies and institutions, have been directed by the Governor to maximize the use of this system in the procurement of goods and services. *We are, therefore, requesting that your firm register as a vendor within the eVA system.*

There are transaction fees involved with the use of eVA. These fees must be considered in the provision of quotes, bids and price proposals offered to Virginia Tech. Failure to register within the eVA system may result in the quote, bid or proposal from

ONE SOURCE. INFINITE SOLUTIONS.

your firm being rejected and the award made to another vendor who is registered in the eVA system.

Registration in the eVA system is accomplished on-line. Your firm must provide the necessary information. Please visit the eVA website portal at <http://www.eva.virginia.gov/pages/eva-registration-buyer-vendor.htm> and **register both with eVA and Ariba**. *This process needs to be completed before Virginia Tech can issue your firm a Purchase Order or contract.* If your firm conducts business from multiple geographic locations, please register these locations in your initial registration.

For registration and technical assistance, reference the eVA website at: <http://www.eva.virginia.gov>, or call 866-289-7367 or 804-371-2525. Fisher Scientific acknowledges and has registered on this site.

V. CONTRACT PARTICIPATION:

It is the intent of this solicitation and resulting contract to allow for cooperative procurement. Accordingly, any public or private educational institution located within Virginia or any affiliated corporation and/or partnership of member institutions may access any resulting contract if authorized by the contractor.

It has been agreed that all members of the Virginia Association of State College and University Purchasing Professionals (VASCUPP) will participate in the contracts resulting from this solicitation. VASCUPP currently comprises eleven members who include: The College of William and Mary, George Mason University, James Madison University, Longwood University, Old Dominion University, Radford University, The University of Mary Washington, The University of Virginia, Virginia Commonwealth University, Virginia Military Institute and Virginia Tech.

If authorized by the Contractor, the resultant contract may be extended to the other public and private educational entities based in Virginia to purchase at contract prices in accordance with contract terms. The Contractor shall notify Virginia Tech in writing of any such entities accessing the contract. No modification of this contract or execution of a separate contract is required to participate. The Contractor will provide quarterly usage reports for all entities accessing the Contract. Participating entities shall place their own orders directly with the Contractor and shall fully and independently administer their use of the contract to include contractual disputes, invoicing and payments without direct administration from Virginia Tech. Virginia Tech shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract. It is understood and agreed that

ONE SOURCE. INFINITE SOLUTIONS.

Virginia Tech is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract no matter the circumstances.

Use of this contract does not preclude any participating entity from using other contracts or competitive processes as the need may be.

VASCUPP is provided analytic and contract management support by the Virginia Higher Education Procurement Cooperative (VHEPC). VHEPC will be the manager for the contract(s) resulting from this solicitation. Fisher Scientific acknowledges.

VI. STATEMENT OF NEEDS:

A. **Basic Requirements.** Preferred suppliers must have the widest and deepest product and service offerings possible. Products and services must be available in electronic catalogs that interact seamlessly with various electronic procurement platforms. The latest technology should be employed to make the entire procure-to-pay process electronic.

Product and Service Offerings

As the channel-to-market for Thermo Fisher Scientific, Fisher Scientific is a clear channel of choice and leading global provider of more than 1,000,000 products and services from over 10,000 suppliers. Our experience in a number of markets—e.g., pharmaceutical, biotech, academic, government, industrial, food and agriculture, safety—positions us to meet the product and service needs of all participating entities.

Our company portfolio is represented by **five premier brands**: Thermo Scientific, Applied Biosystems, Invitrogen, Fisher Scientific, and Unity Lab Services.

Electronic Catalogs

Fisher Scientific's signature website, www.fishersci.com, provides supply value-added solutions to our customers, including the latest advances in electronic order entry, electronic procurement, and Internet/intranet solutions. Through *fishersci.com*, we build on our foundation of over a century of discovery, innovation, and experience.

Our newly redesigned website in the US was launched in mid-2015. Some of the newest features include:

- A layout that makes it much easier to shop for products by groupings and categories
- An enhanced promotional section that allows our suppliers to more clearly communicate the features, benefits, and special offers on their products
- Tools to allow customers to more easily check on the status of orders they have placed, or re-order commonly ordered items

ONE SOURCE. INFINITE SOLUTIONS.

 **Fisher
Scientific**

- A search function that is more visible and prominent, allowing customers to easily find a specific product by name in a matter of seconds
- Numerous enhancements to the information shown on product pages
- **Shop Products** – New menu, or shop by brand
- **Search** – New enhanced product search
- **More Details** about Product Descriptions & Specifications
- **Special Offers** link on top navigation
- **New Order By Catalog** Number (replaces Rapid Order)
- **My Recent Orders** – For faster re-ordering
- **My Lists** – For frequently-ordered products (replaces Hotlists and Templates)
- **My Orders** – Check order status, track shipments, view invoices, request packing slips

Electronic Procurement Platforms

In addition to ordering on www.fishersci.com, order options available from Fisher Scientific provide the tools for easier and more effective management of orders. These include:

- E-mail
- Phone (toll-free 800-766-7000)
- Fax (toll-free 800-926-1166)
- Mail
- Integration order options: EDI, cXML, xCBL, EDI, oagXML
- Fisher Scientific RIMS or Requisition and Inventory Management System (proprietary software, not standard for all customers)
- e-marketplace / e-Procurement providers such as Ariba, PeopleSoft, SciQuest, etc.
- On-Site Specialist (if assigned as part of a negotiated agreement)

Deep discounts off list are expected. Pricing may be adjusted downward at any time and upward semi-annually to reflect changes in manufacturers pricing. Contractor must provide full price files to VHEPC in either Access or Microsoft Excel to support price increase requests. VHEPC has 30 days to review price increase requests and reserves the right to challenge increases based on PPI or other relevant market data. Fisher Scientific acknowledges.

Electronic catalogs should display net prices reflective of discounting. Except for special handling, prices should be inclusive of delivery (FOB Destination). Fisher Scientific acknowledges.

Preferred suppliers must agree to pay eVA transaction fees and must participate in ghost card payment systems if the member institution employs such a system. Fisher Scientific acknowledges.

Preferred suppliers will be expected to agree to provide full sales history files to VHEPC quarterly. See Attachment B for the quarterly sales report format. This report will be provided to individual institutions, if requested. Fisher Scientific acknowledges.

B. Desired Offerings.

1. Special item pricing for high-volume products (hotlists). Though VHEPC solely determines which items qualify as high volume, Hot Lists will be developed and maintained jointly by VHEPC and the contractor. Because of the unique requirements of each institution, Hot Lists should be customizable and will be made available for each institution. Hot list pricing should be maintained for a full year, but VHEPC will be able to make revisions semiannually.

Although VASCUPP is one organization, we understand that it is made up of 11 distinct institutions. Each institution has its own unique requirements based on the type of research being done. For this reason, we created individual hot lists for the six (6) larger schools, Virginia Tech, University of Virginia, Virginia Commonwealth University, George Mason University, Old Dominion and James Madison.

Due to the size of the five (5) smaller schools, we combined their high-volume items into one hot list. The combined hot list is for the following schools: College of William and Mary, Radford, The University of Mary Washington, Virginia Military Institute and Longwood University. The lists were created after analyzing the last 12- months spend of each school. We chose the top high-volume items, priced them lower than the contract price, and will hold this price for the calendar year. Each list will be updated annually on January 1 and held until December 31 of the following year. Please see Attachment for a list of the hot lists.

2. Reporting of diversity subcontracting. We desire for preferred suppliers to develop programming within one year of the effective date of the contract that will identify subcontractors who are certified as small, woman-owned and minority-owned (SWAM) businesses with the Commonwealth of Virginia. The database of certified SWAM suppliers can be obtained from the Virginia Department of Small Business and Supplier Diversity. Individual reports for each institution should be prepared and provided on a quarterly basis.

Fisher Scientific understands the importance of diversity and inclusion and has a formal Supplier Diversity Program with a full-time team dedicated to growing opportunities for small and / or diverse entities. However, due to the state, county, and city variances in definitions for small or diverse, we collect data at the federal level and utilize SBA definitions. We would be unable to report spend based on state certifications.

3. Sales representation. Provide a plan for sales representation for each customer. We recognize that not all institution accounts will warrant full-time on-campus representation. Provide a narrative on how you propose to provide this service.

Each VASCUPP institution is served by one of our seven (7) Fisher Scientific Sales Representatives. Six of the seven live and reside in the Commonwealth of Virginia. Several are dedicated full-time to their respective institutions because of the extent of the institution's size and requirements. Three (3) of our Sales Representatives have a geographical territory in the Commonwealth, and service the schools on a routine basis. Each of these Sales Representatives has a scheduled day or days of the week when they are on campus and available to the end-user community. Purchasing and end users are aware of the Sales Representative's schedule and meet regularly.

We dedicate an **inside Sales Representative** from our Fisher Direct sales segment to provide focused support to **Longwood University** because of its smaller size and proximity. However, please be assured that all Fisher Direct Sales Representatives receive the same technical training as field representatives, have access to the same

resources (e.g., can provide samples, arrange a vendor visit, etc.) and are just a phone call away.

Our Sales Representatives work collaboratively with your researchers to present new products, do live demonstrations of equipment, offer free technical seminars and product shows and coordinate consultative meetings with supplier representatives. Our Representatives bring the new products and technology to your researchers, allowing your researchers to stay in their labs doing research. Please see the list of Fisher Sales representatives and their VASCUPP institution below.

In addition, our field Sales Representatives are supported in their roles by **Region Manager, Jennifer Daugherty**.

The Fisher Scientific sales team is supported by our Specialists and Technical Sales Representatives who provide VASCUPP with information on the newest products and latest technologies and expertise leading to effective and efficient solutions. Our Specialists and Technical Sales Representative also work closely with leading suppliers to ensure that your researchers derive the greatest benefits from our products and services. They will make themselves available, as needed, to answer questions and assist the institutions in meeting their objectives.

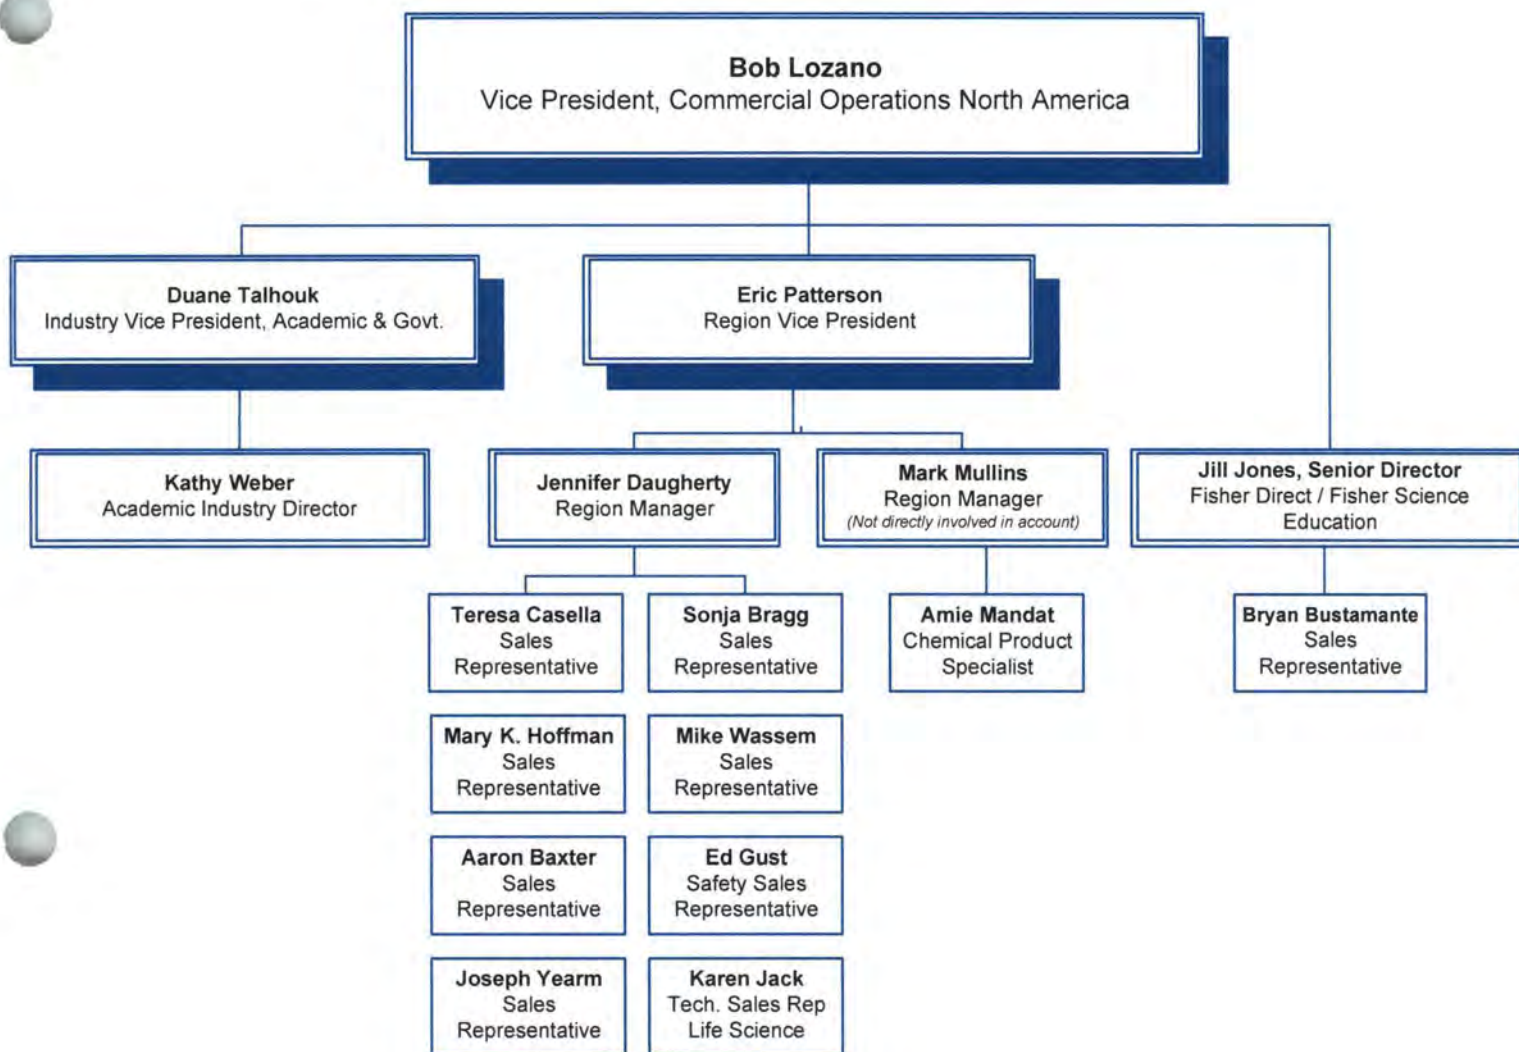

In addition, we also invite VASCUPP researchers and end users to utilize our customer support tools listed below.

- C. Addition of new lines of products and services. It is important to have the flexibility in this contract to allow for future events that add value to the relationship. Examples include, but are not limited to, the addition of products and services that are new to the marketplace; the addition to the distribution chain of a new supplier and the acquisition of a complimentary company.

Fisher Scientific continues to invest in research and development to create innovative new products that both complement and update our existing offering. New products are continually added to Fisher Scientific's catalogs, and links are posted on the Fisher Scientific home page directing users to new products and promotions.

Fisher Scientific employs a discount schedule that groups similar product categories via our Product Pricing Group (PPG) schedule.

Our usage of the Product Price Group (PPG) and vendor-specific discounts will ensure that all new products added to the Fisher Scientific portfolio will be discounted at the same rates as other products in the same category of existing products.

- D. Contract Review. A meeting should be conducted quarterly between the contractor and the contract administrator to review overall performance and resolve any open items. Other subjects to be reported on include contract usage, service levels, price audits, savings, volume rebates, and cost containment actions.

Fisher Scientific acknowledges.

- E. Volume and Growth Incentives. In order to support the growth of the partnership, we look for preferred suppliers to provide financial incentives, payable to each participating institution at the close of each contract year.

Volume and Growth Incentives

Fisher Scientific understands that research and grant monies can fluctuate from year to year. With that, we know that the University's spend with suppliers can also fluctuate year to year. For that reason, Fisher Scientific is offering a franchise **volume incentive** that annually compensates the institutions, even if the previous year's spend has not been attained.

In addition, Fisher Scientific is offering the University a **growth incentive** to reward the University for franchise growth above five percent (5%) of the previous year's spend.

The **two incentives** are offered to each of the 11 VASCUPP schools. The incentives will be paid out annually for those institutions that qualify.

- One percent (1%) payout on franchise spend, from dollar one, if 95% - 105% of prior year baseline spend is reached.
- If the University grows franchise spend more than 105% of the prior year baseline, Fisher Scientific will pay out an additional incentive of five percent (5%) back for every dollar above the 105% threshold.

Early Payment Incentive

- Fisher Scientific is offering all VASCUPP institutions an early payment incentive of 1.5% 10, Net 30 days.

- F. **Strategic Partnership.** To the greatest extent feasible, preferred suppliers will be expected to support VHEPC member institutions by participating and offering sponsorship in outreach events and providing representation that will support the growth and longevity of the procurement consortium concept.

Fisher Scientific has historically participated in and supported many events for the VHEPC members. We would be happy to continue this practice moving forward, as we have consistently evaluated each request and based our support on the value we can provide.

- G. **Stronger partnership.** During the period of the contract, some institutions may wish to form a stronger partnership. This might be described as moving from being a preferred supplier to becoming the primary supplier. Institutions would expect to assist in a stronger manner and in return, receive additional benefits. We would like to provide for this option in the contract so that it will be available, if desired. Please provide a structure describing how a stronger partnership might work and what elements and expectations would be present.

Fisher Scientific recognizes the benefits that can be realized for both parties through a primary supplier relationship. We welcome future discussions with any institution that wishes to enter into this type of agreement. The institutions can expect to receive financial incentives if a primary relationship is established. Incentives may include deeper discounts, expanded hot lists, enhanced growth incentives, for example. Given that each VASCUPP member is a different institution, the incentives may vary based on what they deem as important to them. Therefore, it is difficult to list those incentives in this proposal. Instead, we would like to meet one on one with the institution and tailor the incentives based on their requirements. We would, at that point, discuss with the institution what Fisher Scientific's expectations are as a primary supplier.

VII. PROPOSAL PREPARATION AND SUBMISSION:

A. General Requirements

1. **RFP Response:** In order to be considered for selection, Offerors must submit a complete response to this RFP. **One original and four copies** of each proposal must be submitted to:

Virginia Polytechnic Institute and State University (Virginia Tech)
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

Reference the Due Date and Hour, and RFP Number in the lower left hand corner of the return envelope or package.

No other distribution of the proposals shall be made by the Offeror.

Fisher Scientific acknowledges and has submitted our response in the manner required.

2. **Proposal Preparation:**
 - a. Proposals shall be signed by an authorized representative of the Offeror. All information requested should be submitted. Failure to submit all information requested may result in Virginia Tech requiring prompt submission of missing information and/or giving a lowered evaluation of the proposal. Proposals

which are substantially incomplete or lack key information may be rejected by Virginia Tech at its discretion. Mandatory requirements are those required by law or regulation or are such that they cannot be waived and are not subject to negotiation.

Fisher Scientific acknowledges.

- b. Proposals should be prepared simply and economically providing a straightforward, concise description of capabilities to satisfy the requirements of the RFP. Emphasis should be on completeness and clarity of content.
Fisher Scientific acknowledges.
- c. Proposals should be organized in the order in which the requirements are presented in the RFP. All pages of the proposal should be numbered. Each paragraph in the proposal should reference the paragraph number of the corresponding section of the RFP. It is also helpful to cite the paragraph number, subletter, and repeat the text of the requirement as it appears in the RFP. If a response covers more than one page, the paragraph number and subletter should be repeated at the top of the next page. The proposal should contain a table of contents which cross references the RFP requirements. Information which the offeror desires to present that does not fall within any of the requirements of the RFP should be inserted at an appropriate place or be attached at the end of the proposal and designated as additional material. Proposals that are not organized in this manner risk elimination from consideration if the evaluators are unable to find where the RFP requirements are specifically addressed.
Fisher Scientific acknowledges.
- d. Each copy of the proposal should be bound in a single volume where practical. All documentation submitted with the proposal should be bound in that single volume.
Fisher Scientific acknowledges.
- e. Ownership of all data, material and documentation originated and prepared for Virginia Tech pursuant to the RFP shall belong exclusively to Virginia Tech and be subject to public inspection in accordance with the Virginia Freedom of Information Act. Trade secrets or proprietary information submitted by an Offeror shall not be subject to public disclosure under the Virginia Freedom of Information Act. However, to prevent disclosure the Offeror must invoke the protections of Section 2.2-4342F of the Code of Virginia, in writing, either before or at the time the data or other materials is submitted. The written request must specifically identify the data or other materials to be protected and state the reasons why protection is necessary. The proprietary or trade secret material submitted must be identified by some distinct method such as highlighting or underlining and must indicate only the specific words, figures, or paragraphs that constitute trade secret or proprietary information. The classification of an entire proposal document, line item prices and/or total proposal prices as proprietary or trade secrets is not acceptable and may result in rejection of the proposal.
Fisher Scientific acknowledges.

3. Oral Presentation: Offerors who submit a proposal in response to this RFP may be required to give an oral presentation of their proposal to Virginia Tech. This will provide an opportunity for the Offeror to clarify or elaborate on the proposal but will in no way change the original proposal. Virginia Tech will schedule the time and location of these presentations. Oral presentations are an option of Virginia Tech and may not be conducted. Therefore, proposals should be complete.

Fisher Scientific acknowledges.

B. Specific Requirements

Proposals should be as thorough and detailed as possible so that Virginia Tech may properly evaluate your capabilities to provide the required goods or services. Offerors are required to submit the following information / items as a complete proposal:

1. Provide a summary overview of the company, including geographical operations, unique services provided to the higher education marketplace and envisioned company changes including planned technological advances and acquisitions. As previously discussed in the Statement of Needs section, Fisher Scientific is a part of Thermo Fisher Scientific and is a leading global provider of more than 1,000,000 products and services from over 10,000 suppliers. Our company portfolio is represented by **five premier brands**: Thermo Scientific, Applied Biosystems, Invitrogen, Fisher Scientific, and Unity Lab Services.

- **Thermo Scientific** represents a broad range of high-end analytical instruments, chemistry and consumable supplies, laboratory equipment, software and services that enable integrated laboratory workflow solutions. Thermo Fisher Scientific also markets a range of specialty products featuring well-known industry names sold through Fisher Scientific.
- Under the **Applied Biosystems** and **Invitrogen** brands, we offer life sciences customers a broad range of superior-performing products to help them drive innovation in research, clinical and applied markets. Our portfolio includes some of the most cited products and technologies in qPCR, capillary electrophoresis (CE) sequencing, nextgeneration sequencing (NGS), molecular diagnostics, forensics, cell culture and analysis, and agriculture research.
- **Fisher Scientific** represents a one-stop source and clear channel of choice for a family of global product and service brands comprising a comprehensive range of laboratory equipment, chemicals, instruments, biological products, and consumable supplies. Fisher Scientific's extensive list of **exclusive alliances** with major manufacturers allows us to give our customers easy access to the products that are most in demand—all from one supplier. In addition, we also provide a wide array of value-added services including inventory management, supply chain management, third party procurement, chemical management, and laboratory services.

Our scientific and research products primarily serve colleges and universities, medical research institutions, pharmaceutical and biotechnology companies, hospital research labs, government agencies, original equipment manufacturers, quality control, and R&D laboratories.

- The **Unity Lab Services** brand represents a single source for integrated laboratory service, support and supply management provided across all laboratory instruments, equipment, and supplies - regardless of manufacturer or vendor.

Primary Contract Positions

Fisher Scientific holds the **primary** contract position at a large percentage of the top 100 NIH-funded universities in the U.S. Many of these partnerships and contracts have been in place for many years, and are up to ten years in length. We provide a wide range of services to our academic customers which include, but are not limited to:

- On-site and remote storeroom management (approximately 50 academic institutions)
- On-site freezers, refrigerators, and cabinets for Life Science products through our CORE Programs (Convenient On-Site Replenishment Program)
- Supplier Diversity programs to help meet purchasing requirements
- A portfolio of services from our Unity Lab Services brand provides a single source for integrated lab service, support, and supply management, including:

Instrument Services	Enterprise Services
• Support Plans	• Laboratory Consulting
• Depot Repair	• Asset Management
• Instrument Compliance Services	• Supply Management

- E-commerce utilization which is greater than 50% for the entire academic segment. This includes www.fishersci.com, Market Makers (e.g., Ariba, SciQuest, Perfect Commerce), EDI, etc.
- Leasing programs through Thermo Fisher Scientific

Research Investment and Development of New Products

Our company invests approximately \$700M each year in research and development to create innovative new products that both complement and update our existing offering.

From 2009 to 2016, Thermo Fisher **completed over 20 acquisitions** or new supplier agreements. As a wholly-owned, indirect subsidiary of Thermo Fisher Scientific, many products from these suppliers are now available through Fisher Scientific, including Alfa Aesar, Avantor (JT Baker and Macron), Applied Biosystems and Invitrogen (formerly Life Technologies).

Geographical Locations

Our parent company, Thermo Fisher Scientific Inc. is located in Waltham, MA. Fisher Scientific Company L.L.C. is located at 300 Industry Drive, Pittsburgh, PA 15275.

* Super warehouse designation because of size and geographic location

ONE SOURCE. INFINITE SOLUTIONS.

Fisher Scientific Distribution Centers

Served by Suwanee, GA (Atlanta)

All VASCUPP institutions are served by our "super" warehouse located in Suwanee, GA. Suwanee is considered one of Fisher Scientific's "super warehouses" because of its size and strategic location. This facility contains over 60,000 locations for flammable, oxidant, corrosive, refrigerator, small parts, and bulk storage. In addition, one of four Fisher Scientific customer service centers is located in Suwanee. Customer service is available 24 x 7; emergency shipments would also be coordinated through the Suwanee location.

In addition, we would like to mention the newest "super" warehouse located in Dallas, TX. Earlier in 2016, we closed our Houston, TX location and opened our newest distribution facility in Dallas, TX. The Dallas facility is another example of our commitment to innovation and customer service to serve our customers more efficiently.

2. Provide detailed information regarding product lines and associated discounts off list prices. Also provide your concepts for providing hot lists to the VASCUPP members. Provide information regarding shipping costs and return policies.

Product Lines

- Featuring more than **800,000 products** and services from over 10,000 suppliers, including many **exclusive** relationships for which Fisher Scientific is the only authorized distributor of the product line to more open franchise arrangements.
- Fisher Scientific is uniquely positioned to offer additional value by leveraging your spend through **one** company. As the largest manufacturer of scientific equipment and supplies, Thermo Fisher Scientific provides the widest breadth of products and services. Because of this breadth of coverage, Fisher Scientific can address a significantly larger segment of VASCUPP's spend.

Life Science Product Offering

Whether for drug discovery or disease research, Fisher Scientific offers a single source for life science reagents and instrumentation.

- **Antibodies / Immunology:** From flow cytometry to cell signaling, Fisher Scientific offers immunoassays including cytometric bead arrays. With over 70,000 antibodies in our portfolio and an on-line antibodies search tool, we are a market leader with premier brands in the industry that promote high quality, validated antibodies.
- **Cell Analysis:** From cell viability and proliferation to regulatory pathway analysis, Fisher Scientific supplies you with a best in class portfolio of high quality reagents, cell based assays, imaging systems and fluorescent microscopy.
- **Cell Culture:** From seedling to propagation, Fisher Scientific provides the highest quality FBS and supplements as well as a choice of storage and preservation options.
- **Genomics:** From nucleic acid purification products to advanced analytical tools, such as PCR and qPCR, Fisher Scientific can support all Molecular Biology needs.
- **Microbiology:** From cellular to pharmaceutical microbiology, Fisher Scientific can provide end-to-end support from sample collection to preparation and analysis.
- **Proteomics:** From sample prep to Western Blotting, Fisher Scientific provides high quality protein purification reagents including multiplexing and protein detection instrumentation and reagents.

In order to optimize pricing to our customers, Fisher Scientific utilizes PPGs, or Product Pricing Groups, based on our master shared taxonomy system. This is a product classification system, similar to an industry accepted system such as the United Nations Standard Products and Services Code: UNSPSC.

For pricing purposes, products are grouped by product characteristics. These will replace the current CDC groupings you know today. PPG codes begin with a letter indicating the high-level product classifications:

- Apparatus
- Biologicals
- Chemicals
- Consumables
- Diagnostics
- Equipment
- Furniture
- Instruments

Fisher Scientific understands that each VASCUPP institution may be performing different research, and therefore, each institution's product selection will vary. To accommodate this, we have created 11 separate hot lists for each of the 11 institutions. Each list is comprised of that institution's high-volume items and is priced competitively to meet the demand.

3. **Provide your concept for sales support and on-campus representation to VASCUPP member institutions.**

As outlined above, Fisher Scientific currently has seven (7) Sales Representatives serving the 11 VASCUPP institutions. We employ customer-focused account management to ensure that programs and services meet your immediate needs today along with a proactive view of future activities. Industry Director, **Kathy Weber**, will serve as the single point of contact. Local Region Manager, **Jennifer Daugherty**, and the Sales Representatives serve as the primary points of contact for each site, and direct strategic activities and application of resources, including technical support resources such as Application Specialists (Chemicals, Safety and Life Science) and Senior E-Business Analysts. They direct corporate and local activities as well and provide regular, detailed reporting to measure usage, savings and quality performance. Allocation of resources will be adjusted based on the requirements of member institutions.

In addition, Fisher Scientific's Sales Representatives are responsible for the day-to-day account activities such as demonstration of products, visiting end users with supplier representatives to highlight new innovative products, quotations, and much more.

4. **Provide a statement of agreement with desired structure and frequency of transaction data reporting. Further, provide the Full Price File Template Data. See Attachment C for data elements.**

Fisher Scientific agrees to supply the VASCUPP institutions with the transaction data at the frequency required. Please see Attachment C with data elements attached.

5. **Provide information regarding financial incentives that may be available under the preferred supplier concept. Provide an alternate plan that supports an optional stronger relationship as a primary supplier.**

Please see Section VI, Question G.

6. **Participation and Reporting of Small, Women-owned and Minority-owned Business (SWaM) Business:**

Describe your plan for utilizing Virginia-certified SWaM subcontractors if awarded a contract. Describe your ability to provide reporting on Virginia-certified SWaM subcontracting spend when requested. If your firm or any business that you plan to subcontract with can be classified as SWaM, but has not been certified by the Virginia Department of Small Business and Supplier Diversity (SBSD), it is expected that, with the active encouragement from the prime contractor, the certification process will be initiated by the subcontractor in a timely manner.

Fisher Scientific L.L.C. does not file as a SWaM organization. Fisher Scientific Company L.L.C. does business with more than 6,500 vendors annually and of those, more than 2,000 file as small and/or diverse businesses. Fisher Scientific requests that all vendors sign an annual self-certifying letter defining how they file with the federal government. There is a penalty clause in the document. That information is uploaded into a system where reports can be provided to specify what vendors purchased and how they filed as small and/or diverse businesses. This report can be generated

quarterly. The information obtained is based on the signed documents by the manufacturers. Non-responses from manufacturers cannot be counted towards small and/or diverse annual spend even if they filed that way the previous year.

In addition to Tier II spend reports, the Fisher Scientific channel has created a formal Supplier Diversity Program to aid end users in Tier I spend goals. In regard to this program, the channel has agreed to extend all non-rebated pricing, including transportation and HazMat fees, to a mutually agreed upon small/diverse business.

However, the ultimate sales price would be a negotiation between the mutually agreed upon small business, not with Fisher Scientific. The difference in price would be based upon the value added services the small/diverse business would be providing to VASCUPP.

Fisher Scientific Company L.L.C. currently aids three (3) small businesses certified by the Virginia Department of Minority Business Enterprise. These businesses are formal members of the Fisher Scientific Supplier Diversity Program (SDP) and have access to all vendors (unless manufacturer restricted) and product in our warehouses, along with the option to drop ship from those same manufacturers.

In addition, Fisher Scientific has a dedicated team for our SDP along with a sales force that assists the Program businesses with new opportunities. The dedicated team members also travel with the SDP to meet with the ultimate end users. The goal is to create a win-win scenario for those involved, as the formal program provides the small/diverse business with the opportunity to be competitive in a larger arena than they would otherwise be able to participate.

We would be happy to work with these suppliers to assist in promoting their products on campus, and if applicable, have them attend Fisher Scientific on-site shows. In an effort to provide more visibility to the SWAM supplier's products, Fisher Scientific could also post a Hot List of a SWAM suppliers' high-volume products on fishersci.com. We understand the importance of VASCUPP utilizing the SWAM suppliers and want to work closely with you to help you meet your goals.

7. The return of the General Information Form and addenda, if any, signed and filled out as required.
Fisher Scientific acknowledges.

VIII. SELECTION CRITERIA AND AWARD:

A. Selection Criteria

Proposals will be evaluated by Virginia Tech using the following:

<u>Criteria</u>	<u>Maximum Point Value</u>
1. Ability to satisfy Basic Requirements as Outlined in Section VI. (A.)	20
2. Specific plans or methodology to be used to provide the services	30
3. Financial benefits including discounts, rebates, and other incentives	40

ONE SOURCE. INFINITE SOLUTIONS.

4. Participation and reporting of Small, Women-Owned and Minority (SWAM) Business subcontractors 10

Total 100

Fisher Scientific acknowledges.

B. Award To Multiple Offerors:

Selection shall be made of two or more offerors deemed to be fully qualified and best suited among those submitting proposals on the basis of the evaluation factors included in the Request for Proposals, including price, if so stated in the Request for Proposals. Negotiations shall be conducted with the offerors so selected. Price shall be considered, but need not be the sole determining factor. After negotiations have been conducted with each offeror so selected, the agency shall select the offeror which, in its opinion, has made the best proposal, and shall award the contract to that offeror. The Commonwealth reserves the right to make multiple awards as a result of this solicitation. The Commonwealth may cancel this Request for Proposals or reject proposals at any time prior to an award, and is not required to furnish a statement of the reasons why a particular proposal was not deemed to be the most advantageous. Should the Commonwealth determine in writing and in its sole discretion that only one offeror is fully qualified, or that one offeror is clearly more highly qualified than the others under consideration, a contract may be negotiated and awarded to that offeror. The award document will be a contract incorporating by reference all the requirements, terms and conditions of the solicitation and the contractor's proposal as negotiated. Virginia Tech reserves the right to make multiple awards.

Fisher Scientific acknowledges.

IX. ADDENDUM:

Any **ADDENDUM** issued for this solicitation may be accessed at <http://www.procurement.vt.edu/html.docs/bids.php>. Since a paper copy of the addendum will not be mailed to you, we encourage you to check the web site regularly. Fisher Scientific acknowledges.

X. CONTRACT ADMINISTRATION:

- A. Mr. Ryan Balber, Director, Virginia Higher Education Procurement Cooperative or his designee, shall be identified as the Contract Administrator and shall use all powers under the contract to enforce its faithful performance. Mr. Balber's contact information is phone: 434-297-6099. Email: RB7PQ@eservices.virginia.edu.

Fisher Scientific acknowledges.

- B. The Contract Administrator, or his designee, shall determine the amount, quantity, acceptability, fitness of all aspects of the services and shall decide all other questions in connection with the services. The Contract Administrator, or his designee, shall not have authority to approve changes in the services which alter the

ONE SOURCE. INFINITE SOLUTIONS.

concept or which call for an extension of time for this contract. Any modifications made must be authorized by the Virginia Tech Procurement Department through a written amendment to the contract.

Fisher Scientific acknowledges.

XI. COMMUNICATIONS:

Communications regarding this solicitation shall be formal from the date of issue, until either a Contractor has been selected or the Procurement Department rejects all proposals. Formal communications will be directed to the procurement officer listed on this solicitation. Informal communications, including but not limited to request for information, comments or speculations regarding this solicitation to any University employee other than a Procurement Department representative may result in the offending Offeror's proposal being rejected.

Written questions regarding this solicitation may be submitted to the Procurement Officer: Tom Kaloupek, at kals@vt.edu. The cutoff date for receipt of questions is Friday, September 2, 2106.

Fisher Scientific acknowledges.

XII. CONTROLLING VERSION OF SOLICITATION:

The PDF version of the solicitation and any addenda issued by Virginia Tech Procurement Services is the mandatory controlling version of the document. Any modification of/or additions to the solicitation by the Offeror shall not modify the official version of the solicitation issued by Virginia Tech Procurement Services. Such modifications or additions to the solicitation by the Offeror may be cause for rejection of the proposal; however, Virginia Tech reserves the right to decide, on a case by case basis, in its sole discretion, whether to reject such a proposal.

Fisher Scientific acknowledges.

XIII. TERMS AND CONDITIONS:

This solicitation and any resulting contract / purchase order shall be governed by the attached terms and conditions, see Attachment A.

Applicable terms and conditions for any resulting contract/purchase order shall be mutually agreeable terms and conditions as negotiated between Virginia Tech and Contractor.

XIV. ATTACHMENTS:

Attachment A - Terms and Conditions

Attachment B – Quarterly Sales History Report Format

Attachment C – Full Price File Template

Fisher Scientific acknowledges the attachments listed above.

ATTACHMENT A**TERMS AND CONDITIONS****RFP GENERAL TERMS AND CONDITIONS**

http://www.procurement.vt.edu/html.docs/terms/GTC_RFP_01012016.pdf

Please see proposed exceptions in the edited version of the PDF document referenced above.

ADDITIONAL TERMS AND CONDITIONS:

- A. **ADDITIONAL GOODS AND SERVICES:** The University may acquire other goods or services that the supplier provides than those specifically solicited. The University reserves the right, subject to mutual agreement, for the Contractor to provide additional goods and/or services under the same pricing, terms and conditions and to make modifications or enhancements to the existing goods and services. Such additional goods and services may include other products, components, accessories, subsystems, or related services newly introduced during the term of the Agreement.
Fisher Scientific acknowledges.
- B. **ADVERTISING:** In the event a contract is awarded for supplies, equipment, or services resulting from this solicitation, no indication of such sales or services to Virginia Tech will be used in product literature or advertising. The Contractor shall not state in any of the advertising or product literature that the Commonwealth of Virginia or any agency or institution of the Commonwealth has purchased or uses its products or services.
Fisher Scientific acknowledges.
- C. **AUDIT:** The Contractor hereby agrees to retain all books, records, and other documents relative to this contract for five (5) years after final payment, or until audited by the Commonwealth of Virginia, whichever is sooner. Virginia Tech, its authorized agents, and / or the State auditors shall have full access and the right to examine any of said materials during said period.
Fisher Scientific respectfully requests that Virginia Tech will provide Successful Vendor with reasonable prior written notice before such inspection or audit. Any such inspections or audits shall be at the Virginia Tech's sole cost and expense and shall be reasonably limited in frequency and scope.
- D. **AVAILABILITY OF FUNDS:** It is understood and agreed between the parties herein that Virginia Tech shall be bound hereunder only to the extent of the funds available or which may hereafter become available for the purpose of this agreement.
Fisher Scientific acknowledges.
- E. **CANCELLATION OF CONTRACT:** Virginia Tech reserves the right to cancel and terminate any resulting contract, in part or in whole, without penalty, upon 60 days written notice to the Contractor. In the event the initial contract period is for more than 12 months, the resulting contract may be terminated by either party, without penalty, after the initial 12 months of the contract period upon 60 days written notice to the other party. Any contract cancellation notice shall not relieve the Contractor of the obligation to deliver and/or perform on all outstanding orders issued prior to the effective date of cancellation.
Fisher Scientific acknowledges.

- F. CONTRACT DOCUMENTS:** The contract entered into by the parties shall consist of the Request for Proposal including all modifications thereof, the proposal submitted by the Contractor, the written results of negotiations, the Commonwealth Standard Contract Form, all of which shall be referred to collectively as the Contract Documents.

Fisher Scientific acknowledges.

- G. IDENTIFICATION OF BID/PROPOSAL ENVELOPE:** The signed bid or proposal should be returned in a separate envelope or package, sealed and identified as follows:

From: _____
Name of Bidder or Offeror Due Date Time
Due

Street or Box No. Solicitation Number

City, State, Zip Code Solicitation Title

Name of Procurement Officer: _____

The envelope should be addressed to:

VIRGINIA POLYTECHNIC INSTITUTE AND STATE UNIVERSITY (Virginia Tech)
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

The offeror takes the risk that if the envelope is not marked as described above, it may be inadvertently opened and the information compromised, which may cause the proposal to be disqualified. Bids or Proposals may be hand delivered to the designated location in the office issuing the solicitation. No other correspondence or other bids/proposals should be placed in the envelope.

Fisher Scientific acknowledges.

H. INSURANCE:

By signing and submitting a proposal under this solicitation, the Offeror certifies that if awarded the contract, it will have the following insurance coverages at the time the work commences. Additionally, it will maintain these during the entire term of the contract and that all insurance coverages will be provided by insurance companies authorized to sell insurance in Virginia by the Virginia State Corporation Commission.

During the period of the contract, Virginia Tech reserves the right to require the Contractor to furnish certificates of insurance for the coverage required.

INSURANCE COVERAGES AND LIMITS REQUIRED:

- A. Worker's Compensation - Statutory requirements and benefits.**

Fisher Scientific acknowledges.

ONE SOURCE. INFINITE SOLUTIONS.

B. Employers Liability - \$100,000.00

Fisher Scientific acknowledges.

C. General Liability - \$500,000.00 combined single limit. Virginia Tech and the Commonwealth of Virginia shall be named as an additional insured with respect to goods/services being procured. This coverage is to include Premises/Operations Liability, Products and Completed Operations Coverage, Independent Contractor's Liability, Owner's and Contractor's Protective Liability and Personal Injury Liability.

Fisher Scientific acknowledges.

D. Automobile Liability - \$500,000.00

The contractor agrees to be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from the payment of all sums of money by reason of any claim against them arising out of any and all occurrences resulting in bodily or mental injury or property damage that may happen to occur in connection with and during the performance of the contract, including but not limited to claims under the Worker's Compensation Act. The contractor agrees that it will, at all times, after the completion of the work, be responsible for, indemnify, defend and hold harmless Virginia Tech, its officers, agents and employees from all liabilities resulting from bodily or mental injury or property damage directly or indirectly arising out of the performance or nonperformance of the contract.

Fisher Scientific acknowledges.

I. NOTICES: Any notices to be given by either party to the other pursuant to any contract resulting from this solicitation shall be in writing, hand delivered or mailed to the address of the respective party at the following address

If to Contractor: Address Shown On RFP Cover Page
Attention: Name Of Person Signing RFP

If to Virginia Tech:

Virginia Polytechnic Institute and State University (Virginia Tech)
Attn: Patricia Mullins, Assistant Director of Procurement for Research Support
Procurement Department (MC 0333)
North End Center, Suite 2100
300 Turner Street NW
Blacksburg, Virginia 24061

and

Virginia Higher Education Procurement Cooperative
Attn: Mr. Ryan Balber, Director
University of Virginia
1001 N. Emmet St
PO Box 400202
Charlottesville, VA 22904

Fisher Scientific acknowledges.

J. PROPOSAL ACCEPTANCE PERIOD: Any proposal received in response to this solicitation shall be valid for (60) days. At the end of the (60) days the proposal may be withdrawn at the written request of the Offeror. If the proposal is not withdrawn at that time it remains in effect until an award is made or the solicitation is cancelled.
Fisher Scientific acknowledges.

K. RETURN OF GOODS. Products judged by Virginia Tech not to be acceptable may be rejected. All costs associated with rejection are the responsibility of the Contractor. Over-shipments will be accepted at Virginia Tech's discretion. The Contractor will be responsible for the disposition of all defective, damaged or rejected over-shipped products. Laboratory apparatus returns will include original packing materials and operation manuals. Return authorizations shall be provided by the Contractor within 14 calendar days of verbal notification.

Fisher Scientific's Return Policy is listed below.

Fisher Scientific's "no hassle" return policy is part of our commitment to fulfilling complete customer satisfaction. Returns can be coordinated by contacting our Customer Service center. Products may be returned within 30 days for replacement or adjustment through our "no hassle" return program.

All returns, replacements, technical services and support will be handled by our customer service organization as follows:

To assure prompt handling, customers must obtain a Return Goods Authorization Number (RGA Number) from Customer Service and reference this number on return shipping documents. An RGA can be obtained by calling Customer Service at 800.766.7000 and / or request on-line authorization (you must be a registered and logged-in user). Please note that returns made without the RGA Number will be returned to the customer, freight collect.

Fisher Scientific reserves the right to reverse any credit issued to the customer:

- 1) for any Product not returned after authorization and requested by Distributor; or,
- 2) if, upon return, such Product is determined by Distributor not to be defective.

Fisher Scientific will issue **full credit** for:

- Products not supplied in accordance with the customer's orders; and,
- Products which are defective at the time of receipt by the Subscriber.

Fisher Scientific will issue **partial credit** for:

- Products ordered in error, with the exceptions noted below.

Fisher Scientific **will not issue credit** for:

- Products which have been discontinued;
- Products which are personalized or customized;
- Non-Distributor line products supplied to a customer as an accommodation, including, without limitation, third party purchases;
- Products not purchased from Distributor;
- Refrigerated or temperature controlled Products;
- Products which are outdated, shelf-worn, used or defaced and, therefore, unsuitable for return to stock and resale as new;
- Reagents, diagnostics, or chemicals which have been opened;

ONE SOURCE. INFINITE SOLUTIONS.

- Products that have been shipped outside the United States; and
- Medical device products.

L. DELIVERY. FOB Destination (Freight included in price). This is inclusive of dry ice and hazardous material charges and any fuel surcharges. The Contractor should maintain an inventory sufficient to make delivery to Virginia Tech within two (2) working days from the date the order was placed. Products identified on the Hot List will be delivered on the next business day. The Contractor shall deliver to all receiving docks or inside delivery as designated by Virginia Tech.

"Non-standard transportation" charges may be specifically authorized by Virginia Tech for shipments that require special handling. An example would be one-time service for a large item of equipment that requires special carriers and transportation equipment for delivery. Freight charges for Fisher Scientific catalog products are F.O.B. Virginia Tech's U.S. destination, normal freight prepaid and absorbed by Fisher Scientific. Third party items (including all Non-Catalog Products), shall be F.O.B. shipping point, freight prepaid and charged to Customer.

At the University's request, shipments requiring special handling or air express charges will be charged to the University, and will appear as "Non-Standard Transportation Charge" on the invoice. Ice, fuel surcharge, and HazMat fees will be waived.

Please be aware that a separate \$10.00 fee (government regulated) will be assessed should a customer purchase a product that contains iodine. The fee will appear as a separate line item on the invoice.

M. WARRANTY. All products purchased under this contract will minimally include the Original Equipment Manufacturers warranty and will pass directly to Virginia Tech. Products which fail after acceptance and installation will be covered under warranty. The decision to replace such products or accept warranty repair will be at the sole discretion of Virginia Tech, except in the event Virginia Tech fails to provide timely notice to the Contractor of product failure. The Contractor should provide a toll-free number for requests for warranty service for all equipment sold under the contract. Any maintenance agreements available from the Contractor should be provided to Virginia Tech as an option and priced as discounted off list price.
Fisher Scientific acknowledges.

N. SEVERAL LIABILITY: Virginia Tech will be severally liable to the extent of its purchases made against any contract resulting from this solicitation. Applicable entities described herein will be severally liable to the extent of their purchases made against any contract resulting from this solicitation.
Fisher Scientific acknowledges.

RFP GENERAL TERMS AND CONDITIONS

ANTI-DISCRIMINATION: By submitting their proposals, offerors certify to the Commonwealth that they will conform to the provisions of the Federal Civil Rights Act of 1964, as amended, as well as the Virginia Fair Employment Contracting Act of 1975, as amended, where applicable, the Virginians With Disabilities Act, the Americans With Disabilities Act, and Section 2.2-4311 of the Virginia Public Procurement Act. If the award is made to a faith-based organization, the organization shall not discriminate against any recipient of goods, services, or disbursements made pursuant to the contract on the basis of the recipient's religion, religious belief, refusal to participate in a religious practice, or on the basis of race, age, color, gender or national origin and shall be subject to the same rules as other organizations that contract with public bodies to account for the use of the funds provided; however, if the faith-based organization segregates public funds into separate accounts, only the accounts and programs funded with public funds shall be subject to audit by the public body. (*Code of Virginia*, § 2.2-4343.1 E).

In every contract over \$10,000 the provisions in A and B below apply:

A. During the performance of this contract, the Contractor agrees as follows:

- 1) The contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, or any other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the contractor. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.
- 2) The Contractor, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, will state that such Contractor is an equal opportunity employer.
- 3) Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this Section.

B. The Contractor will include the provisions of A. above in every subcontract or purchase order over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.

2. **ANTITRUST:** By entering into a contract, the Contractor conveys, sells, assigns, and transfers to Virginia Tech and the Commonwealth of Virginia all rights, title and interest in and to all causes of the action it may now have or hereafter acquire under the antitrust laws of the United States and the Commonwealth of Virginia, relating to the particular goods or services purchased or acquired by Virginia Tech and the Commonwealth of Virginia under said contract.

3. **APPLICABLE LAWS AND COURTS:** This solicitation and any resulting contract shall be governed in all respects by the laws of the Commonwealth of Virginia and any litigation with respect thereto shall be brought in the courts of the Commonwealth. The Contractor shall comply with applicable federal, state and local laws and regulations.

4. **ASSIGNMENT OF CONTRACT:** A contract shall not be assignable by the Contractor in whole or in part without the written consent of Virginia Tech.

5. **CHANGES TO THE CONTRACT:** Changes can be made to the Contract in any one of the following ways:

- A. The parties may agree in writing to modify the scope of the contract. An increase or decrease in the price of the contract resulting from such modification shall be agreed to by the parties as a part of their written agreement to modify the scope of the contract
- B. Virginia Tech may order changes within the ~~general~~ scope of the contract at any time by written notice to the Contractor. Changes within the scope of the contract include, but are not limited to, things such as the method of packing or shipment and the place of delivery or installation. **If deemed acceptable and valid by Contractor**, then **the** Contractor shall comply with the notice upon receipt. The Contractor shall be compensated for any additional costs incurred as the result of such order and shall give Virginia Tech a credit for any savings. Said compensation shall be determined by one of the following methods:
 - 1) By mutual agreement between the parties in writing; or
 - 2) By agreeing upon a unit price or using a unit price set forth in the **mutually executed** contract, if the work to be done can be expressed in units, and the Contractor accounts for the number of units of work performed, subject to Virginia Tech's right to audit the Contractor's records and/or to determine the correct number of units independently; or
 - 3) By ordering the Contractor to proceed with the work and to keep a record of all costs incurred and savings realized, **only if in accordance with Contract Scope of Work**. A markup for overhead and profit may be allowed if provided by the contract. The same markup shall be used for determining a decrease in price as the result of savings realized. The Contractor shall present Virginia Tech with all vouchers and records of expenses incurred and savings realized. Virginia Tech shall have the right to audit the records of the Contractor as it deems necessary to determine costs or savings. Any claim for an adjustment in price under this provision must be asserted by written notice to Virginia Tech within thirty (30) days from the date of receipt of the written order from Virginia Tech. If the parties fail to agree on an amount of adjustment, the question of an increase or decrease in the contract price or time for performance shall be resolved in accordance with the procedures for resolving disputes provided by the Disputes Clause of this contract or, if there is none, in accordance with the disputes provisions of the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and Their Vendors. Neither the existence of a claim or a dispute resolution process, litigation ~~or any other provision of this contract~~ shall excuse the Contractor from promptly complying with the changes ordered by Virginia Tech ~~or if in accordance with the performance of~~

the contract ~~generally~~.

6. **CLAIMS:** Contractual claims, whether for money or other relief, shall be submitted in writing to the Director of Procurement, Procurement Department, North End Center, Suite 2100, Virginia Tech, 300 Turner Street NW, Blacksburg, Virginia 24061, no later than sixty (60) days after final payment; however, written notice of the contractor's intention to file such claim shall have been given at the time of the occurrence or beginning of the work upon which the claim is based. Nothing herein shall preclude a contract from requiring submission of an invoice for final payment within a certain time after completion and acceptance of the work or acceptance of the goods. Pending claims shall not delay payment of amounts agreed due in the final payment (Code of Virginia, Section 2.2-4363). A contractor may not institute legal action prior to receipt of the Director of Procurement decision on the claim, unless that office fails to render such decision within thirty (30) days. The decision of the Director of Procurement shall be final and conclusive unless the contractor, within six (6) months of the date of the final decision on the claim, institutes legal action as provided in the *Code of Virginia*, Section 2.2-4364.
7. **CLARIFICATION OF TERMS:** If any prospective offeror has questions about the specifications or other solicitation documents, the prospective offeror should contact the buyer whose name appears on the face of the solicitation no later than five working days before the due date. Any revisions to the solicitation will be made only by addendum issued by the buyer.
8. **COMMONWEALTH OF VIRGINIA PURCHASING MANUAL FOR INSTITUTIONS OF HIGHER EDUCATION AND THEIR VENDORS:** This solicitation is subject to the provisions of the Commonwealth of Virginia Purchasing Manual for Institutions of Higher Education and Their Vendors and any revisions thereto, which are hereby incorporated into this contract in their entirety. A copy of the manual is available for review in the Virginia Tech Procurement Department or by accessing URL <http://www.procurement.vt.edu> on the Web.
9. **CONFLICT OF INTEREST:** Virginia Tech is a public university, subject to the laws of the Commonwealth of Virginia. Among these is the State and Local Government Conflict of Interests Act (The Act). The Act can be accessed via <http://leg1.state.va.us/cgi-bin/legp504.exe?000+cod+2.2-3100>. You may wish to consult the provisions of The Act before submitting a response to the Request for Proposal. Additionally, by submitting a proposal or by entering into any resulting contract, the offeror certifies that it is in full compliance with the provisions of The Act as to this ~~RFP~~ RFP.
10. **CONTRACT PARTICIPATION:** Any public body, public or private health or educational institutions, or Virginia Tech's affiliated corporations and/or partnerships may access any resulting contract/purchase order if authorized by the contractor. Participating entities shall place their own order(s) directly with the Contractor and shall fully and independently administer their use of the contract/purchase order to include contractual disputes, invoicing and payments without direct administration from Virginia Tech. Virginia Tech shall not be held liable for any costs or damages incurred by any other participating entity as a result of any authorization by the Contractor to extend the contract/purchase order. It is understood and agreed that Virginia Tech is not responsible for the acts or omissions of any entity, and will not be considered in default of the contract/purchase order no matter the circumstances.
11. **DEBARMENT STATUS:** By submitting their proposals, offerors certify that they are not currently debarred by the Commonwealth of Virginia from submitting bids or proposals on contracts for the type of goods and/or services covered by this solicitation, nor are they an agent of any person or entity that is currently so debarred.
12. **DEFAULT:** In case of failure to deliver goods or services in accordance with the contract terms and conditions, Virginia Tech, after ~~due oral or~~ written notice, may procure them from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies which Virginia Tech may have. ~~However, before Virginia Tech can procure goods from other sources, Contractor shall have ten (10) days from receipt of written notice to cure delivery failure.~~
13. **DRUG-FREE WORKPLACE:** In every contract over \$10,000 the following provisions apply: During the performance of this contract, the Contractor agrees to (i) provide a drug-free workplace for the Contractor's employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or on behalf of the Contractor that the Contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every subcontract or purchase order of over \$10,000, so that the provisions will be binding upon each subcontractor or vendor.
For the purposes of this section, "drug-free workplace" means a site for the performance of work done in connection with a specific contract awarded to a Contractor the employees of whom are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the contract.
14. **EO/AA STATEMENT:** If this contract is a covered government contract or subcontract, contractors and subcontractors shall abide by the requirements of 41 CFR §§ 60-1.4(a), 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities, and prohibit discrimination against

all individuals based on their race, color, religion, sex, sexual orientation, gender identity or national origin. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status or disability.

Virginia Tech does not discriminate against employees, students, or applicants on the basis of age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, or veteran status; or otherwise discriminate against employees or applicants who inquire about, discuss, or disclose their compensation or the compensation of other employees, or applicants; or any other basis protected by law.

For inquiries regarding non-discrimination policies, contact the Office of Equity and Access at 540-231-2010 or Virginia Tech, North End Center, Suite 2300 (0318), 300 Turner St. NW, Blacksburg, VA 24061.

15. **ETHICS IN PUBLIC CONTRACTING:** By submitting their proposals, offerors certify that their proposals are made without collusion or fraud and that they have not offered or received any kickbacks or inducements from any other offeror, supplier, manufacturer or subcontractor in connection with their proposal, and that they have not conferred on any public employee having official responsibility for this procurement transaction any payment, loan, subscription, advance, deposit of money, services or anything of more than nominal value, present or promised unless consideration of substantially equal or greater value was exchanged.
16. **eVA BUSINESS-TO-GOVERNMENT VENDOR REGISTRATION:** The eVA Internet electronic procurement solution, web site portal www.eva.state.va.us, streamlines and automates government purchasing activities in the Commonwealth. The portal is the gateway for vendors to conduct business with state agencies and public bodies. All vendors desiring to provide goods and/or services to Virginia Tech should participate in the eVA Internet e-procurement solution either through the eVA Basic Vendor Registration Service or eVA Premium Vendor Registration Service. Failure to register may result in the proposal being rejected.
17. **FACSIMILE PROPOSALS:** Facsimile **unsealed** proposals received in the Virginia Tech Procurement Department prior to the time and date designated for proposal submission will be accepted.

For **sealed** Request for Proposal (RFP) programs, an offeror may fax a proposal to a **non-Virginia Tech** third party, who in turn must deliver it, with the number of copies specified in the RFP, to the Procurement Department in a sealed envelope before the proposal due date and time. All information requested in the Proposal Preparation and Submission section of the RFP must be delivered with each copy of the proposal.

18. **IMMIGRATION REFORM AND CONTROL ACT OF 1986:** By submitting their proposals, the offerors certify that they do not and will not during the performance of this contract employ illegal alien workers or otherwise violate the provisions of the federal Immigration Reform and Control Act of 1986.
19. **INDEMNIFICATION:** Contractor agrees to indemnify, defend and hold harmless Virginia Tech and the Commonwealth of Virginia and their officers, agents, and employees from any claims, damages and actions of any kind or nature whether at law or in equity, arising from or caused by the use of any materials, goods, or equipment of any kind or nature, furnished by the contractor/any services of any kind or nature furnished by the contractor, provided that such liability is not attributable to the sole negligence of Virginia Tech or failure of Virginia Tech to use the materials, goods, or equipment in the manner already and permanently described by the contractor on the materials, goods or equipment delivered. Contractor shall have no indemnification liability for death, injury, or damage arising solely out of the negligence or misconduct of Virginia Tech or the Commonwealth of Virginia, its trustees, officers, agents and employees. ~~The indemnification obligation shall be reciprocal for damages caused by either party with sharing proportionate to each party's fault. Except as otherwise expressly stated, in no event will Contractor be liable for consequential, incidental, or indirect damages.~~
 → TO THE EXTENT AUTHORIZED BY VIRGINIA LAWS
20. **INDEPENDENT CONTRACTOR:** The contractor shall not be an employee of Virginia Tech, but shall be an independent contractor. Nothing in this agreement shall be construed as authority for the contractor to make commitments which shall bind Virginia Tech, or to otherwise act on behalf of Virginia Tech, except as Virginia Tech may expressly authorize in writing.
21. **LATE PROPOSALS:** To be considered for selection, proposals must be received by the Virginia Tech Procurement Department, Ste 2100, Virginia Tech, 300 Turner Street NW, Blacksburg, Virginia 24061, by the designated date and hour. The official time used in the receipt of proposals is that time on the automatic time stamp machine in the Virginia Tech Procurement Department. Proposals received in the Virginia Tech Procurement Department after the date and hour designated are automatically disqualified and will not be considered. Virginia Tech is not responsible for delays in the delivery of mail by the U.S. Postal Service, private couriers, the intrauniversity mail system, or another means of delivery. It is the sole responsibility of the offeror to insure that its proposal reaches the Virginia Tech Procurement Department by the designated date and hour.
22. **MANDATORY USE OF VIRGINIA TECH FORMS AND TERMS AND CONDITIONS:** Failure to submit a proposal on the official Virginia Tech form provided for that purpose may be a cause for rejection of the proposal. Modification of or additions to the

General Terms and Conditions of the solicitation may be cause for rejection of the proposal; however, Virginia Tech reserves the right to decide, on a case by case basis, in its sole discretion, whether to reject such a proposal.

3. NONDISCRIMINATION OF CONTRACTORS: An offeror or contractor shall not be discriminated against in the solicitation or award of this contract because of race, religion, color, sex, national origin, age, disability, faithbased organizational status, any other basis prohibited by state law relating to discrimination in employment or because the offeror employs ex-offenders unless the state agency, department or institution has made a written determination that employing ex-offenders on the specific contract is not in its best interest. If the award of this contract is made to a faith-based organization and an individual, who applies for or receives goods, services, or disbursements provided pursuant to this contract objects to the religious character of the faith-based organization from which the individual receives or would receive the goods, services, or disbursements, the public body shall offer the individual, within a reasonable period of time after the date of his objection, access to equivalent goods, services, or disbursements from an alternative provider.

24. NONVISUAL ACCESS TO TECHNOLOGY: All information technology which, pursuant to this Agreement, is purchased or upgraded by or for the use of (the "Technology") Virginia Tech shall comply with the following nonvisual access standards from the date of purchase or upgrade until the expiration of this Agreement:

- (i) effective, interactive control and use of the Technology shall be readily achievable by nonvisual means;
 - (ii) the Technology equipped for nonvisual access shall be compatible with the information technology used by other individuals with whom any blind or visually impaired user of the Technology interacts;
 - (iii) nonvisual access technology shall be integrated into any networks used to share communications among employees, program participants or the public; and
 - (iv) the technology for nonvisual access shall have the capability of providing equivalent access by nonvisual means to telecommunications or other interconnected network services used by persons who are not blind or visually impaired.
- Compliance with the foregoing nonvisual access standards shall not be required if the head of the using agency, institution or political subdivision determines that (i) the Technology is not available with nonvisual access because the essential elements of the Technology are visual and (ii) nonvisual equivalence is not available.

Installation of hardware, software, or peripheral devices used for nonvisual access is not required when the Technology is being used exclusively by individuals who are not blind or visually impaired, but applications programs and underlying operating systems (including the format of the data) used for the manipulation and presentation of information shall permit the installation and effective use of nonvisual access software and peripheral devices.

If requested, the Contractor must provide a detailed explanation of how compliance with the foregoing nonvisual access standards is achieved and a validation of concept demonstration.

The requirements of this Paragraph shall be construed to achieve full compliance with the Information Technology Access Act, § 2.2-3500 through 2.2-3504 of the Code of Virginia.

25. PARKING PERMITS: Virginia Tech Parking Services requires the purchase and display of a parking permit for all vendor/business/contractor vehicles, privately and company owned, that park on campus. The cost of the permit is the same as the faculty/staff permit. Permit options include one year, six months, three months, summer, or day. Permits are available through application at Virginia Tech Parking Services, 455 Research Center Drive, Blacksburg, Virginia 24061. Additional information is available at <http://www.parking.vt.edu/vbc.htm> or by calling Parking Services at (540) 231-3200.

26. PAYMENT:

A. TO PRIME CONTRACTORS:

- 1) Invoices for items ordered, delivered and accepted shall be submitted by the Contractor directly to the payment address shown on the purchase order/contract. All invoices shall show the Virginia Tech or state contract number and/or purchase order number; social security number (for individual contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations).
- 2) Any payment terms requiring payment in less than 30 days will be regarded as requiring payment 30 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 30 days, however.
- 3) All goods or services provided under this contract or purchase order, that are to be paid for with public funds, shall be billed by the Contractor at the contract price, regardless of which public agency is being billed.
- 4) The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized under the Virginia Debt Collection Act.
- 5) Unreasonable Charges. Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed. In such cases, contractors should be put on notice that final payment in full is contingent on a determination of reasonableness with respect to all invoiced charges. Charges which appear to be unreasonable will be researched and challenged, and that portion of the invoice held in abeyance until a settlement can be reached. Upon determining that invoiced charges are not reasonable, the Commonwealth shall promptly notify the contractor, in writing, as to those charges which it considers unreasonable and the basis for the determination. A contractor may not institute legal action unless a settlement cannot be reached within thirty (30) days of notification. The provisions of this section do not relieve an agency of its prompt payment obligations with respect to those charges which are not in dispute (*Code of Virginia*, § 2.2-4363).

B) TO SUBCONTRACTORS:

- 1) A contractor awarded a contract under this solicitation is hereby obligated:
 - a) To pay the subcontractor(s) within seven (7) days of the contractor's receipt of payment from the Commonwealth for the proportionate share of the payment received for work performed by the subcontractor(s) under the contract; or
 - b) To notify Virginia Tech and the subcontractor(s), in writing, of the contractor's intention to withhold payment and the reason. The contractor is obligated to pay the subcontractor(s) interest at the rate of one percent per month (unless otherwise provided under the terms of the contract) on all amounts owed by the contractor that remain unpaid seven (7) days following receipt of payment from the Commonwealth, except for amounts withheld as stated in b) above. The date of mailing of any payment by U.S. Mail is deemed to be payment to the addressee. These provisions apply to each sub-tier contractor performing under the primary contract. A contractor's obligation to pay an interest charge to a subcontractor may not be construed to be an obligation of the Commonwealth.

27. PRECEDENCE OF TERMS: Paragraphs 1, 2, 3, 7, 8, 9, 13, 15, 18, and 19 of these General Terms and Conditions shall apply in all instances. In the event there is a conflict between any of the other General Terms and Conditions and any Special Terms and Conditions in this solicitation, the Special Terms and Conditions shall apply.

28. PUBLIC NOTICE OF AWARD: Public notice of the purchase order/contract award will be publicly posted on the DGS/DPS eVA web site www.eva.state.va.us. Award information may also be obtained by contacting the buyer whose name appears on the solicitation.

29. QUALIFICATIONS OF OFFERORS: Virginia Tech may make such reasonable investigations as deemed proper and necessary to determine the ability of the offeror to perform the work/furnish the item(s) and the offeror shall furnish to Virginia Tech all such information and data for this purpose as may be requested. Virginia Tech reserves the right to inspect offeror's physical facilities prior to award to satisfy questions regarding the offeror's capabilities. Virginia Tech further reserves the right to reject any proposal if the evidence submitted by, or investigations of, such offeror fails to satisfy Virginia Tech that such offeror is properly qualified to carry out the obligations of the contract and to complete the work/furnish the item(s) contemplated therein.

30. SMALL, WOMEN, AND MINORITY-OWNED (SWAM) BUSINESS SUBCONTRACTING AND EVIDENCE OF COMPLIANCE:

- A. Where it is practicable for any portion of the awarded contract to be subcontracted to other suppliers, the contractor is encouraged to offer such business to small, women, and/or minority-owned (SWAM) business. If SWAM subcontractors are used, the prime contractor agrees to report the use of SWAM subcontractors by providing the Owner at a minimum the following information: name of firm, SBSD SWAM certification number, phone number, total dollar amount subcontracted, category type (small, women, or minority-owned), and type of product/service provided. Note that SWAM vendors MUST be certified with the Virginia Department of Small Business and Supplier Diversity (SBSD) <http://www.sbsd.virginia.gov>.
- B. Definitions:
 1. **Small business** – An independently owned and operated business which, together with affiliates, has 250 or fewer employees or average annual gross receipts of \$10 million or less averaged over the previous three years. Virginia Department of Small Business and Supplier Diversity (SBSD) certified women-owned and minority-owned business shall also be considered small business when they have received SBSD small business certification.
 2. **Women-owned business** – A business concern that is at least 51% owned by one or more women who are U. S. citizens or legal resident aliens, or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest is owned by one or more women who are citizens of the United States or non-citizens who are in full compliance with the United States immigration law, and both the management and daily business operations are controlled by one or more women who are U. S. citizens or legal resident aliens.
 3. **Minority-owned business** – A business concern that is at least 51% owned by one or more minority individuals (see Section 2.2-1401, Code of Virginia) or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest in the corporation, partnership, or limited liability company or other entity is owned by one or more minority individuals and both the management and daily business operations are controlled by one or more minority individuals.
 4. **Minority individual** – means an individual who is a citizen of the United States or a non-citizen who is in full compliance with United States immigration law and who satisfies one or more of the following definitions:
 - a. "African American" means a person having origins in any of the original peoples of Africa and who is regarded as such by the community of which this person claims to be a part.
 - b. "Asian American" means a person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands, including but not limited to Japan, China, Vietnam, Samoa, Laos, Cambodia, Taiwan, Northern Marianas, the Philippines, a U. S. territory of the Pacific, India, Pakistan, Bangladesh, or Sri Lanka and who is regarded as such by the community of which this person claims to be a part.

- c. "Hispanic American" means a person having origins in any of the Spanish-speaking peoples of Mexico, South or Central America, or the Caribbean Islands or other Spanish or Portuguese cultures and who is regarded as such by the community of which this person claims to be a part.
 - d. "Native American" means a person having origins in any of the original peoples of North America and who is regarded as such by the community of which this person claims to be a part or who is recognized by a tribal organization.
- C. All Small, Woman-owned, Minority-owned and Disabled Veteran-owned businesses who meet the definition established by the Code of Virginia as certifiable are strongly encouraged to obtain certification with the Virginia Department of Small Business and Supplier Diversity (SBSD).
31. **TAXES:** Sales to Virginia Tech and the Commonwealth of Virginia are normally exempt from State sales tax, State sales and use tax certificates of exemption, Form ST-12, will be issued upon request. Deliveries against this contract shall be free of Federal excise and transportation taxes. The Commonwealth's excise tax exemption registration number is 54-73-0076K.
32. **TESTING AND INSPECTION:** Virginia Tech reserves the right to conduct any test/inspection it may deem advisable to assure supplies and services conform to the specification. *All test / inspection criteria shall be mutually agreed to between Virginia Tech and Contractor. Accordingly, acceptance testing compliance is to be measured with published specifications, with testing in accordance with industry standards.*
33. **TRANSPORTATION AND PACKAGING:** By submitting their proposals, all offerors certify and warrant that the price(s) offered are for FOB destination and include only the actual freight rate costs at the lowest and best rate and is based upon the actual weight of the goods to be shipped. Except as otherwise specified herein, standard commercial packaging, packing and shipping containers shall be used. All shipping containers shall be legibly marked or labeled on the outside with purchase order number, commodity description, and quantity.
34. **USE OF BRAND NAMES:** Unless otherwise provided in this solicitation; the name of a certain brand, make or manufacturer does not restrict offerors to the specific brand, make or manufacturer named, but conveys the general style, type, character, and quality of the article desired. Any article which Virginia Tech in its sole discretion determines to be equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended, shall be accepted. The offeror is responsible to clearly and specifically indicate the product being offered and to provide sufficient descriptive literature, catalog cuts and technical detail to enable Virginia Tech to determine if the product offered meets the requirements of the solicitation. This is required even if offering the exact brand, make or manufacturer specified. Unless the offeror clearly indicates in its proposal that the product offered is an "equal" product, such proposal will be considered to offer the brand name product referenced in the solicitation.
35. **LIMITATION OF LIABILITY:**
~~"NOTWITHSTANDING ANYTHING ELSE TO THE CONTRARY, CONTRACTOR WILL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, SPECIAL, PUNITIVE OR OTHER INDIRECT DAMAGES, AND CONTRACTOR'S TOTAL LIABILITY ARISING AT ANY TIME FROM THE SALE OR USE OF THE PRODUCTS SHALL NOT EXCEED AN AMOUNT EQUAL TO THE LESSER OF (A) THE TOTAL PURCHASE PRICE THEREFORE PAID BY VIRGINIA TECH TO CONTRACTOR WITH RESPECT TO THE PRODUCT(S) GIVING RISE TO SUCH LIABILITY OR (B) ONE MILLION DOLLARS (\$1,000,000). THESE LIMITATIONS APPLY WHETHER THE LIABILITY IS BASED ON CONTRACT, TORT, STRICT LIABILITY OR ANY OTHER THEORY."~~

Brand and Supplier Guide

UNITED STATES 2016

We are committed to providing you with the best and latest products on the market today for all your applications. We are aligned with thousands of manufacturers around the globe to offer single-source ordering convenience for the quality products you need, when you need them. This list includes our leading suppliers of scientific and safety products. For information on suppliers not listed, please contact your Fisher Scientific Representative or visit www.fishersci.com.

A Thermo Fisher Scientific Brand

Exclusive Supplier Guide

2016 Suppliers and Brands

From the most advanced equipment to the latest life science consumables, we offer what you need to achieve successful results. Through our commitment to you, we have built strong relationships with companies that continually develop innovative products. Listed below are the suppliers for whom Fisher Scientific is the exclusive national channel for all or part of their product line. For more information, or for a complete list of suppliers, please contact your Fisher Scientific Representative or visit www.fishersci.com.

APPLIED BIOSYSTEMS

- Protein Labeling
- Whatman™ Array Slides
- Whatman Blotting Apparatus
- Whatman Filtration Plates
- Whatman FTA Products
- Whatman Transfer Membranes

Gibco™

- Media, Sera and Cell Culture Essentials

Hofer

- 1D & 2D Electrophoresis
- Blotting Apparatus
- Electrophoresis Apparatus
- Power Supplies

Invitrogen™

- Ambion™ Sample Prep
- Antibodies and Cytokines
- Antibody Arrays
- Anza™ Restriction Enzyme Cloning System
- Countess™ Automated Cell Counters
- Inverted and Fluorescence Microscopes
- PCR, RT-PCR Reagents
- PureLink™ Sample Prep
- Transfection Reagents
- MolecularProbes™ Antibodies
- MolecularProbes Imaging Products
- MolecularProbes Protein Expression
- Novex™ Nucleic Acid Electrophoresis
- Novex Protein Electrophoresis
- Trizol™ Reagents
- Western Blotting Detection Systems
- Western Blotting Reagents
- Western Blotting Transfer Systems

Lonza*

- Cell Culture Media and Supplements
- FlashGel™ System
- Products and Reagents for Nucleic Acid and Protein Electrophoresis
- Protein Electrophoresis Reagents

Mirus Bio™ Corporation*

- DNA and RNA Transfection Products
- DNA Labeling Products
- Electroporation Kits and Solutions
- In Vivo Delivery Systems

MP Biomedicals

- Biochemicals and Reagents
- Immuno Solutions
- Radiochemicals
- Sample Preparation Systems

Promega

- Apoptosis Assays
- Cell Viability and Cytotoxicity Assays
- DNA Purification Kits
- Kinase, Phosphatase Reagents
- PCR Reagents
- Reporter Gene Assay and Vectors
- Restriction/Modifying Enzymes
- RNA Purification Kits
- Transcription, Translation Kits
- Transfection Reagents

Stemgent

- Alvetex™ 3-D Cell Culture Scaffold

Sartorius™

- Bioreactors
- CultiBag RM Products
- Protein Purification

Southern Biotechnology

- Monoclonal and Polyclonal Secondary Antibodies

Spectronics Corporation

- Transilluminators
- Ultraviolet Equipment

Spectrum

- Dialysis Tubing and Membranes

Thermo Scientific™

- ART™ Pipette Tips
- BioMate™ Spectrophotometers
- Biosafety Cabinets
- EC Power Supplies
- Erie Scientific Microarray Slides
- FastDigest Restriction Enzymes
- Forma™ CO₂ Incubators
- GeneJet™ DNA/RNA Purification Kits
- Heracell™ CO₂ Incubators
- HPLC Instrumentation and Columns
- Hybridization Ovens
- KingFisher™ Systems
- Lab Vision™ Immunostaining Reagents
- Lab Vision Primary Antibodies
- Matrix™ Pipette, Pipette, Heat Sealers
- Maxima™ and Luminaris™ qPCR and RT-PCR Reagents
- MaxQ™ Shakers
- NanoDrop™ Spectrophotometers, Fluorimeters
- Nicolet™ IS5 FT-IR Spectrometer
- NUNC™
 - Barnstead™ Water Purification Systems
 - Cell Array Products
 - Cell Culture Consumables
 - Cryogenics Products
 - HTS Assay Plates
 - Purification Products
- Owl™ Electrophoresis Apparatus
- Particle Technology Count Controls, Size Standards, Flow, Dyed, Fluorescent and Specialty Particles
- PCR Plastics
- Phire™ Hot-Start PCR Enzymes
- Phusion™ and Phire™ Direct PCR Kits
- Phusion High Fidelity PCR Enzymes
- Pierce™ Autoradiography Film
- Pierce Cell Lysis Reagents
- Pierce Photodocumentation Equipment
- Pierce Protein/Antibody Purification
- Pierce Protein Concentrators, Protein Function Reagents
- Pierce Western Detection Reagents
- Remel™/Oxoid™
 - Additives
 - Dehydrated Culture Media
 - Prepared Culture Media
 - Quality Control Organisms
- Sorvall™ Centrifuges
- Steri-cult CO₂ Incubators
- UV-Vis Spectrophotometers
- Water Purification System*

Ultraviolet Products (UVP)

- Photodocumentation Systems
- Transilluminators
- UV Equipment

*Available in U.S. Only **Bold designates exclusive supplier through Fisher Scientific.**

Application-focused website organized by application and technique to help you find the most appropriate products for your research: www.fishersci.com/lifescience
